Rochester, New York 14692-1790

Dear Mr. Eisenman:

SUBJECT: Linden Road Landfill
Site Investigation Plan, Interim Remedial Measures Plan

I have reviewed your plans for this site and based upon my review I have the following comments.

1. Your Interim Remedial Measures Plan is approved with a question as to your selection of the PID or OUA for field screening. Please explain which will be used, and why.
2. Your Site Investigation Plan indicates that deep wells will be drilled but no explanation of how cross-contamination will be prevented.
3. The Department of Natural Resource's PEAS number should be added to your list of emergency numbers. The number is: 1-800-292-4706.

Your Site Investigation Plan is approved without the deep well until question #2 is answered. Also, I would like access to the site to split samples on request and access to any weekly or monthly work progress meetings. Any questions can be directed to me at the address listed above.

Sincerely,

A handwritten signature in cursive script that reads "Ben Hall".
