**Subject:** Citizen query on Former GM Property - Flint

Jim,

I got a call today from a Jane Hicks (Cell # [REDACTED]). She was calling representing a [REDACTED] (sp) who apparently is interested in investing in some former GM Flint property. Ms. Hicks did not have detailed information on the actual property location (no address) except to say it was a 12 acre site on Linden Rd, where half of it has already been developed (mentioned Linden Property Development & Mgt.). She said they understood that there was a "report" that says the property is okay to build on - circa 2007. Point of her call was to obtain a copy of that report.

Don't know if you recognize where she's talking about or what "report" she means, but told her you'd have the most info from that time frame and area and that I'd ask you to give her a call back on Monday (if for nothing else than to try to get more detailed info). Would you give her a call please? Any idea what she's referring to?

*Dennis*
