I should be listed as MLC's contact for the site.

I am an independent consultant that provides environmental project management services for MLC for this site and several others. Prior to their bankruptcy I provided similar services to GM. Most of my projects have been located outside of Michigan until Ken left and I was asked to take on this site and several others in Michigan.

Please contact me with any questions.

Thank you,  
David Favero

David,

I don't have any comment on the report, just who I should put down as the contact for this site. Please forward any additional contact information.
