Sketch a map showing streets, highways, routes or other prominent landmarks near the site. Place an X on the map to indicate the site location. Draw an arrow showing the direction north. You may substitute a publishing map showing the site location.

The Linden Road landfill is located in the SE 1/4, NE 1/4, Section 17, T. 7 N., R. 6 E., Flint Township, Genessee County, Michigan.

I Description of Site: (Optional)
Describe the history and present conditions of the site. Give directions to the site and describe any nearby wells, springs, lakes, or housing. Include such information as how waste was disposed and where the waste came from. Provide any other information or comments which may help describe the site conditions.

Chevrolet purchased this land in 1931 and discontinued it's use in 1971. There are no records as to what was landfilled there or exactly where. The 67,500,000 cubic feet reported in "F" above is just an engineering estimate based on the entire forty acres being filled to a depth of 40 feet. Site inspection reveals empty drums, machining chips, and construction debris. Geological records indicate the Saginaw formation aquafier is at a depth of 90 feet in this area allowing for a 50 foot clay/till bed under the bottom of the fill. For this reason as indicated in "G" above, a release to the environment is not likely. Monitoring wells show no significant ground water contamination.

J. Signature and Title:

The person or authorized representative (such as plant managers, superintendents, trustees or attorneys) of persons required to notify must sign the form and provide a mailing address (if different than address in item A). For other persons providing notification, the signature is optional. Check the boxes which best describe the relationship to the site of the person required to notify. If you are not required to notify check "Other".
