North American Operations
902 E. Hamilton Ave.
Flint, Michigan 48550-8504

Dear Mr. Metcalf:

SUBJECT: Sampling Plan Verification of Soil Remediation Linden Road Site Frontage Zone
Soil Remediation, Flint Township, Michigan, Genesee County

The Michigan Department of Environmental Quality (MDEQ) has completed its review of the above referenced document, submitted by Babu S. Babusukumar, P.G. and John J. Ososkie, P.E. of Roy F. Weston, Inc. in a meeting held in the Shiawassee District office on February 5, 1998.

The MDEQ finds the plan acceptable. However, if the actual dimensions of the proposed excavations are significantly different than estimated, the number of closure samples must also change accordingly.

Feel free to contact me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "James E. Innes".
