Mr. Luther Blackburn
YCUA Industrial Pretreatment Program Supervisor
Ypsilanti Community Utilities Authority
2777 State Road
Ypsilanti, Michigan 48198-9112

Dear Mr. Blackburn:

Re: November 2012 Discharge Permit
Industrial User Permit #RA 12-15
RACER Trust
Company Vehicle Operations Area (CVO)
2901 Tyler Road
Ypsilanti, Michigan

Pursuant to requirements of Industrial User Permit # RA 12-15 (Permit) Appendix A, the permittee is required to submit a monthly discharge summary by the 5th of every month for the previous calendar month. CRA has prepared this discharge summary for November 2012 on behalf of Revitalizing Auto Communities Environmental Response (RACER) Trust for Willow Run Company Vehicle Operations Area (CVO), located in Ypsilanti, Michigan (Site).

During the month of November 2012, the total volume of treated water discharged to Outfall 01 was 9,575 gallons. The water was treated with sodium permanganate on November 14, 2012 and discharged on November 20, 2012, as previously discussed with YCUA representatives and as indicated below.

Date	Flow Totalizer Readings (Gallons)		Total Volume Discharge (Gallons)
	Initial	Final	
11/20/2012	513,142*	522,717	9,575

* The flow totalizer was previously used at a different site and has been used to treat into totes (without discharge) at the Site. This initial reading does not represent only historic discharges to Outfall 001.

The system was decommissioned on November 27, 2012 and no water will be discharged after this date. The last discharge occurred on November 20, 2012.
