LANSING

LIESL EICHLER CLARK
DIRECTOR

January 29, 2021

VIA E-MAIL AND U.S. MAIL

Mr. David Favero
Deputy Cleanup Manager - Michigan
RACER Trust
500 Woodward Avenue, Suite 2650
Detroit, Michigan 48226

Dear Mr. Favero:

SUBJECT: Approval; PFAS Contingency Plan; RACER Coldwater Road Landfill; Flint, Michigan; MID 005 356 860; Waste Data System Number 393431

The Michigan Department of Environment, Great Lakes, and Energy (EGLE), Materials Management Division (MMD), has reviewed the Contingency Plan (plan), dated January 15, 2021, for the RACER Coldwater Road Landfill (facility), prepared by Ramboll. The MMD had requested a plan to address possible steps should PFAS concentrations in the Stanley Road sanitary sewers not display a clear reducing trend after the two proposed sampling events. The plan was reviewed for compliance with the applicable sections of Part 111, Hazardous Waste Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, and its administrative rules, as well as the site's Post-Closure Care Plan.

Based on our review, the MMD approves the plan. Please notify me before the March 2021 sampling event.

If you have any questions, please contact me at 517-242-8496; RungeJ@Michigan.gov; or EGLE, MMD, P.O. Box 30241, Lansing, Michigan 48909-7741.

Sincerely,

Jacob Runge, Environmental Engineer
Management and Tracking Unit
Hazardous Waste Section
Materials Management Division
