After going through notes and emails, I'm not sure if you were still waiting on a response to the 2016 Supplemental Investigation Work Plan. I believe you were going to implement it after the annual sampling event planned for next week. I have no comments to add at this time, so you can stick to your implementation schedule. If the schedule has changed, please let me know.

Thanks, Amanda

Amanda,

We have looked at the 2003 ecological evaluation further based on your comments and questions at our meeting on September 7th. Since the site use has changed we concur that some additional screening is warranted. We will begin initial steps towards doing an aquatic screening level ERA following the collection of surface water and sediment samples outlined in the supplemental status report. We will provide results of the first step of the aquatic screening for discussion prior to completing additional tiers in the ERA.

Thanks,

Scott

Amanda,

Following up with our discussion last week here is an e-copy of the 2003 ecological risk assessment

report for your records.

Thanks,

Scott
