Dear Mr. Favero:

SUBJECT: December 23, 2020, *Scope of Work*; RACER Coldwater Road Landfill; Flint, Michigan; MID 005 356 860; Waste Data System Number 393431

The Michigan Department of Environment, Great Lakes, and Energy (EGLE), Materials Management Division (MMD), has reviewed the *Scope of Work* (SOW), dated December 23, 2020, for the RACER Coldwater Road Landfill (facility), prepared by Ramboll. The SOW was reviewed for compliance with the applicable sections of Part 111, Hazardous Waste Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, and its administrative rules, as well as the site's Post-Closure Care Plan. The SOW outlines repairs/rehabilitation of sewers and manholes west of the facility located in Genesee Township, Michigan.

Based on our review, the MMD conditionally approves the proposed plan. Long term monitoring will be needed to determine both the effectiveness of the work to lower PFAS concentrations at downstream locations and determine when repair work may be needed again. Approval of this SOW is contingent on the submittal and approval of a monitoring plan by the conclusion of this work (approximately 34 weeks from the projected start date), including a monitoring schedule and financial assurance for the monitoring.

If you have any questions, please contact me at 517-242-8496; RungeJ@Michigan.gov; or EGLE, MMD, P.O. Box 30241, Lansing, Michigan 48909-7741.

Sincerely,

Jacob Runge, Environmental Engineer
