Re: Findings of the Frontage Zone Investigation  
Linden Road Site  
Genesee County, Michigan

Dear Mr. Van Riper:

Roy F. Weston, Inc. (WESTON®), on behalf of General Motors Corporation (GM) hereby submits three (3) copies of the report presenting the findings of the recent subsurface investigations conducted at the Linden Road site. The above study was conducted specifically to evaluate soil quality of an approximately 400-foot wide frontage zone within the site and to determine the potential for remediating this area to meet the MDEQ Generic Commercial Criteria.

The investigation was conducted pursuant to a subsurface soil sampling plan dated 14 April 1997 submitted to the Michigan Department of Environmental Quality (MDEQ).

If you have any questions or require additional information please call me at (847) 918-4018.

Very truly yours,

ROY F. WESTON, INC.

S. Babusukumar, P.G.
