Pursuant to requirements of Industrial User Permit # RA 6-12 (Permit) Appendix A, the permittee is required to submit a monthly discharge summary by the 5th of every month for the previous calendar month. CRA has prepared this discharge summary for July 2011 on behalf of Revitalizing Auto Communities Environmental Response (RACER) Trust.

During the month of July 2011, the total volume of treated water discharge to Outfall 001 was 9,776 gallons. The water was treated and discharged on July 13, 2011 as indicated below.

Date	Flow Totalizer Readings (Gallons)		Total Volume Discharge (Gallons)
	Initial	Final	
7/13/2011	404,144 *	413,920	9,776

* The flow totalizer was previously used at a different site. This initial reading does not represent historic discharges to Outfall 001.

The quarterly self monitoring report for July - September 2011 will be submitted prior to October 20, 2011 as outlined in Appendix A of the industrial permit.
