Mr. Ben Hall
Environmental Quality Analyst
Environmental Response Division
Michigan Department of Natural Resources
Steven T. Mason Building
P. O. Box 30028
Lansing, Michigan 48909

Dear Mr. Hall:

Enclosed please find two Work Plans pertaining to the Linden Road Landfill for your review and approval. The Plans were prepared for AC Rochester Division of General Motors by Roy F. Weston, Inc. to describe the next phase of our voluntary investigation of the site. Although the Site Investigation Work Plan and the Interim Remedial Measures Evaluation Work Plan are somewhat interrelated, two separate documents were prepared in order to allow initial MDNR approval of each plan individually, as well as to allow any necessary modifications of one Work Plan to be accomplished without delaying implementation of the second Plan.

General Motors is eager to maintain a proactive position at Linden Road, as demonstrated past environmental assessments and by submittal of these Work Plans. Please give us your comments as soon as possible so field work can begin before winter arrives.

Don't hesitate to call me if you have any questions.

Sincerely,

Richard C. Eisenman
Senior Environmental Engineer
Divisional Environmental Activities
