RESTRICTIVE COVENANT

The below listed owner/operator has implemented a corrective action plan requiring institutional controls in the form of a restrictive covenant. The corrective action plan was developed as a result of a release from a Leaking Underground Storage Tank(s) (LUST) and was prepared pursuant to the provisions in Section 21310a(2) of Part 213. Regulated substances were discovered during the investigation and/or removal of Underground Storage Tanks (USTs). The corrective action plan cited above will be maintained on file at the STD District Office located at

10650 Bennett Drive, Morrice, MI 48857-9792 (Shiawassee District Office)

This restrictive covenant is filed with the County Register of Deeds and covers the land identified in the following as GM Lansing Plant #2 Building 250 Tank Farm Area, and more fully described in Attachment A, attached. The restrictive covenant defines the areas addressed by the corrective action plan and the scope of any land use or resources limitations. The survey defining the areas addressed by the corrective action plan is attached. Land and resource use limitations include the following:

1. Periodic maintenance of existing pavement and low permeability surfaces to prevent infiltration of precipitation. If excavation activities conducted within the area addressed by this Restrictive Covenant, the low permeability surface must be replaced where removed;
2. Installation of private water supply wells, including but not limited to drinking water and industrial supply wells, within the area addressed by this Restrictive Covenant; and
3. Residential development, unless site soils are remediated to levels protective of potential residential exposures, as defined by the Michigan Department of Environmental Quality.

The restrictive covenant is being filed by the below listed legal titleholder:

(hereinafter referred to as the "titleholder"), hereby imposes restriction on the property and covenants and agrees that:

1. The Titleholder shall restrict activities on the property that may interfere with corrective action, operation and maintenance, monitoring, or other measures necessary to assure the effectiveness and integrity of the corrective action.
2. The Titleholder shall restrict activities that may result in exposure to regulated substances above levels established in the corrective action plan.
