Detroit, Michigan 48226

RECEIVED DEC 23 2013

Dear Mr. Favero:

SUBJECT: Notice of Approval of Response Activity Plan for:
Plant 2 Peninsula Property, 79 West Center Street, Saginaw, Saginaw County

The Michigan Department of Environmental Quality (DEQ), Remediation and Redevelopment Division (RRD), has reviewed the Response Activity Plan for the Human Health Pathway Analysis for Unsaturated Soil, submitted February 15, 2013. This submittal was amended by the Response to the DEQ Comments on the Human Health pathway Analysis for Unsaturated Soils, submitted on November 5, 2013, and the electronic mail dated December 16, 2013, for the Plant 2 Peninsula. These submittals and the electronic mail were prepared by Arcadis on behalf of RACER and pursuant to Section 20114b(3) of Part 201, Environmental Remediation, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA). Based upon representations and information contained in the submittal, the Response Activity Plan is approved. The DEQ's approval is contingent upon RACER's timely implementation of the remedial action in accordance with the approved budget and schedule.

This Response Activity Plan approval is based upon the representations and information contained in the submittal, therefore the DEQ expresses no opinion as to whether other conditions that may exist will be adequately addressed by the response activities that are proposed. Notwithstanding this approval, if environmental contamination is found to exist that is not addressed by the Response Activity Plan and you are otherwise liable for the contamination, additional response activities may be necessary.

If you should have further questions or concerns, please contact Sue Kaelber-Matlock, Project Manager, at 989-894-6249; matlocks@michigan.gov; or myself at the number below.

Sincerely,

Rhonda Klann, Supervisor
Saginaw Bay District Office
Remediation and Redevelopment Division
