Jane,

Attached are the closure documents for the front parcels associated with the Linden Road Landfill. The State has done no environmental testing at these properties since the date of the letter. The groundwater sampling at the parcel to the west (soccer fields) was suspended in 2010. Groundwater contamination under the landfill is not migrating onto neighboring properties.

I have received a Freedom of Information Act request for documents related to current test results from Khaled Shukairy, M.D. I assume this is the individual you represent.

Let me know if you have any questions.
