

RACER-Saginaw Nodular Indust (120770)
NPDES - Reconnaissance Inspection

NPDES - Reconnaissance Inspection				
1. Date of Inspection:	06/30/2016			
2. Approximate Start Time:	12:30 PM			
3. Permit No.:	MI0059042			
4. Facility Designated Name:	RACER-Saginaw Nodular Indust			
5. Inspection Purpose/Description	Unscheduled			
Participant Name	Title	Affiliation	Phone Number	Email Address
7. Opening Conference Notes: The purpose of the inspection was to observe the newly constructed discharge pipe and intake at outfall 021.				
8. Observation and Discussion Notes: Outfall 021 had been lowered several feet. A riser pipe had been installed so that only water from the surface of the former lagoon was being discharged. The discharge was clear. The new splash pad was dispersing the flow adequately.				
9. Closing Conference Notes: No concerns about the discharge and the new discharge structure at outfall 021.				
10. Were photographs taken?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No			
11. Completed By:	Keith Noble
