Dear Mr. Metcalf:

SUBJECT: Second Annual Groundwater Sampling and Methane Monitoring,
Linden Road Landfill, Genesee County

The Michigan Department of Environmental Quality (MDEQ) has completed review of the subject document and has the following comment:

The MDEQ agrees the concentration of vinyl chloride found in the groundwater sampled from MW-3S merits further investigation. Please initiate the proposed quarterly groundwater sampling for volatile organic compounds at this well location.

Feel free to contact me if you have any questions.

Sincerely,

James E. Innes
