Ladies and Gentlemen:

My staff has informed me that there is no longer any discharge from the referenced plant to waters of the state. Since a National Pollutant Discharge Elimination System permit is no longer required, the NPDES permit referenced above will not be renewed.

An NPDES permit application must be submitted at least 180 days prior to any change in your operation which would result in a permit being required under Chapter 3745-33 of the Ohio Administrative Code (formerly Ohio EPA regulation EP-31). You should also be aware that Chapter 3745-31 of the Ohio Administrative Code (formerly Ohio EPA regulation EP-30) requires a permit to install be obtained prior to commencing any construction that would modify a treatment works to allow it to process waste in materially different character.

You are hereby notified that this action of the Director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within thirty (30) days after notice of the Director's action. The appeal must be accompanied by a filing fee of \$70.00, made payable to "Ohio Treasurer Josh Mandel", which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the Director within three (3) days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General's Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
17th Floor, 77 South High Street
Columbus, OH 43215

Sincerely,

Scott J. Nally
Director
