RE: Upcoming Remediation Activities

Dear Ms. Landale:

The following letter is in regards to your submittal received by the Ypsilanti Community Utilities Authority (YCUA) on March 19, 2013 regarding expanded remediation activities which are planned at the RACER Trust - Company Vehicle Operations Site located at 2901 Tyler Road in the Township of Ypsilanti. A review of the proposed activities has been completed by the YCUA. YCUA is of the understanding remediation activities will be expanded for a period of about three months in an effort to remove source material responsible for impacting site groundwater and soils.

In response to the expanded remediation activities, the YCUA is requiring to be notified once recovered groundwater from the excavation is planned for discharge to the sanitary sewer collection system through Outfall 001. Once notification is received that the expanded remediation activities has begun, the YCUA will coordinate with your staff to conduct a site inspection and monitoring of the discharge. Beyond the notification, the YCUA has determined that no modifications will be required in industrial user permit #RA 12-15 at this time. If the results of the inspection or monitoring indicates a change in the industrial user permit is necessary, the YCUA will provide written notification of the additional requirements and/or revisions.

Please contact me if you have any questions regarding this correspondence by phone at 734-484-4600 ext. 123 or by email at lblackburn@ycua.org.

Sincerely,

A handwritten signature in black ink, appearing to read "L. Blackburn", is written over a light blue horizontal line.

Luther Blackburn
YCUA Industrial Surveillance Supervisor
