Hello All,

Per our call on the 12th of August, where EGLE provided concurrence, we plan on proceeding with the field work associated with the Bulkhead Inspection Plan for the RACER Buick City Site in Flint, Michigan, which was included as an attachment to the ICAP submitted through MiEnviro per the WRD ACO on February 27th, 2026. We will be planning out the activities and once scheduled EGLE will be notified of the dates.

I have also attached the slide deck from the August 12, 2026 meeting for your records/reference.
