Dear Mr. Worrell:

Subject: Groundwater Sampling Select Monitoring Wells for Evaluation of Vinyl Chloride at the Linden Road Landfill Site, Genesee County

The Michigan Department of Environmental Quality (DEQ) has completed review of the subject document, dated August 1, 2005, and submitted on your behalf by Weston Solutions, Inc. (Weston).

The DEQ concurs with Weston's recommendation to sample monitoring wells MW-03S, MW-14S, and MW-15S a minimum of two additional times in the next year, and to provide the results of these sampling events to the DEQ. At the completion of the sampling and evaluation of the data, the DEQ will determine if further action will be required.

Feel free to contact me if you have any questions.

Sincerely,

James E. Innes
Remediation and Redevelopment Division
