Pursuant to requirements of Industrial User Permit #RA 12-15 (Permit) Appendix A, the permittee is required to submit a monthly discharge summary by the 5<sup>th</sup> of every month for the previous calendar month. CRA has prepared this discharge summary for June 2013 on behalf of Revitalizing Auto Communities Environmental Response (RACER) Trust for Willow Run Company Vehicle Operations Area (CVO), located in Ypsilanti, Michigan (Site).

During the month of June 2013, the total volume of treated water discharged to Outfall 01 was 14,961 gallons. The water was treated with sodium permanganate on June 19, 2013. The water was discharged on June 20, 2013, as indicated below.

| Date       | Flow Totalizer Readings<br>(Gallons) |         | Total Volume<br>Discharge<br>(Gallons) |
|------------|--------------------------------------|---------|----------------------------------------|
|            | Initial                              | Final   |                                        |
| 06/20/2013 | 554,043*                             | 569,004 | 14,961                                 |

\* The flow totalizer was previously used at a different site and has been used to treat into totes (without discharge) at the Site. This initial reading does not represent only historic discharges to Outfall 001.
