1.0 INTRODUCTION

Conestoga-Rovers & Associates (CRA) of Romulus, Michigan was retained by General Motors Corporation (GM) of Detroit, Michigan to complete a Phase I Environmental Site Assessment (ESA) of the Clark Avenue Oil Reclamation Facility (Site) which is a portion of the Clark Avenue Facility located at 2860 Clark Avenue, Detroit, Michigan. The shipping and receiving address of the Oil Reclamation Facility subsequent to 1996 has also been identified as 2441 Clark Avenue. The purpose of the Phase I ESA was to identify potential areas of environmental concern (PAOC) associated with prior or current activities conducted at the Site. PAOCs are areas where there may have been a release of contaminants into the environment at levels that could adversely impact human health or the environment, based on the following objective criteria; (i) written records regarding a release; or (ii) knowledge of a release reported by GM personnel; or (iii) currently visible evidence of a release associated with a route into the environment.

The Phase I ESA Site inspection was conducted by CRA on February 6, 1998. A Site location map is provided on Figure 1.1. A Site plan is provided on Figure 1.2.

The Site is part of a larger property which was known as the GM Clark Avenue Facility and was located at 2860 Clark Avenue. The GM Clark Avenue Facility was the headquarters of the Cadillac Motor Car Division until that function was relocated in 1993. Portions of the overall GM Clark Avenue Facility property are currently being redeveloped as an industrial park. The Oil Reclamation Facility has been out of service since November 1997.

The Phase I ESA was conducted in accordance with GM specifications and general accordance with ASTM Standard E1527-97 for conducting environmental assessments. The assessment included an environmental database search, historical records review, a Site inspection, a review of relevant Site records, and interviews with individuals associated with the Site. The following tasks were conducted during the assessment:

- review of Federal and State environmental databases and historical records;
- review of aerial photographs of the Site;
- review of past and current property use and adjacent property occupancy;
- inspection of the facilities, equipment, utility services, operations and associated Site records;
- observations of conditions that represented potential areas of environmental concern;
- review of raw material use and storage and spill/release incidents;

**Privileged and Confidential
Prepared at General Motors
Counsel's Request**

- review of the results of prior inspections conducted at the Site;
- review of waste handling, accumulation, storage and disposal practices;
- review of air emissions and wastewater discharges;
- review of equipment that potentially contain polychlorinated biphenyls (PCBs);
- observation of potential asbestos-containing materials (ACM); and
- review of aboveground and underground storage tank records.

CRA accepted information obtained from GM employees as accurate unless written documentation or field observations contradicted it.

This report summarizes the information gathered by CRA during the Phase I ESA and identifies PAOCs associated with the Site. This Phase I ESA has been prepared for the use of GM, and may not be relied upon by any other party without written concurrence from CRA.

2.0 **ENVIRONMENTAL DATABASES SEARCH AND HISTORICAL RECORDS REVIEW**

2.1 **ENVIRONMENTAL DATABASES SEARCH**

CRA contracted Environmental Risk Information and Imaging Services (ERIIS) to conduct a search of federal and state environmental databases. Based on the address of the GM Clark Avenue Facility, the database searches were completed to assist in the identification of conditions at the GM Clark Avenue Facility and within a radius distance specified in ASTM Standard E1527-97. The Site is defined as a portion of the GM Clark Avenue Facility. The following databases were searched with the findings as noted (see Appendix A):

2.1.1 **FEDERAL DATABASES**

1. National Priority List (NPL) - The NPL is a United States Environmental Protection Agency (USEPA) listing of the nation's worst uncontrolled or abandoned hazardous waste sites. NPL Sites are targeted for possible long-term remedial action under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) of 1980. In addition, the NPL Report includes information concerning cleanup agreements between the USEPA and potentially responsible parties, any liens filed against contaminated properties, as well as the past and current USEPA budget expenditures tracked within the Superfund Consolidated Accomplishments Plan (SCAP).

FINDING: The Site was not reported to be on the NPL. The GM Clark Avenue Facility was not reported to be on the NPL. No sites within a one-mile radius of the Site were reported to be on the NPL.

CONCLUSION: No concerns exist at the Site based on the ERIIS database search.

2. Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) - The CERCLIS List is a comprehensive listing of known or suspected uncontrolled or abandoned hazardous waste sites. These sites have either been investigated or are currently under investigation by the USEPA for the release or threatened release of hazardous substances. Once a site is placed in CERCLIS, it may be subjected to several levels of review and

evaluation and may ultimately be placed on the NPL. In addition to site events and milestone dates, the CERCLIS List contains financial information from the SCAP. As of February 1995, CERCLIS sites designated "No Further Remedial Action Planned" have been removed from the CERCLIS List.

FINDING: The Site was not reported to be on the CERCLIS List. The GM Clark Avenue Facility was not reported to be on the CERCLIS List. No sites within a half-mile radius of the Site were reported to be on the CERCLIS List.

CONCLUSION: No concerns exist at the Site based on the ERIIS database search.

3. No Further Remedial Action Planned (NFRAP) Sites Report - The NFRAP Sites Report, also known as the CERCLIS Archive, contains information pertaining to sites which have been removed from the USEPA's CERCLIS Database. NFRAP sites may be sites where, following an initial investigation, no contamination was found, contamination was removed quickly without the need for the site to be placed on the NPL, or the contamination was not serious enough to require federal Superfund action or NPL consideration.

FINDING: The Site was not reported to be listed in the NFRAP Sites Report. The GM Clark Avenue Facility was not reported to be in the NFRAP Site Report. No sites within a half-mile radius of the Site were reported to be listed in the NFRAP Sites Report.

CONCLUSION: No concerns exist at the Site based on the ERIIS database search.

4. Resource Conservation and Recovery Information System - Treatment, Storage and Disposal Facilities (RCRIS-TS) Report - The RCRIS-TS Report contains information regarding those facilities that either treat, store or dispose of USEPA regulated hazardous waste. The following information also is included in the RCRIS-TS Report: information regarding the status of facilities tracked by the Resource Conservation and Recovery Act (RCRA) Administrative Action Tracking System (RAATS); inspections and evaluations conducted by Federal and State Agencies; all reported facility violations, the environmental statutes violated and any proposed and actual penalties; and a complete listing of USEPA regulated hazardous wastes which are generated or stored on-site.

FINDING: The Site was not reported to be listed in the RCRIS-TS Report. The GM Clark Avenue Facility was not reported to be in the RCRIS-TS Report. No sites within a half-mile radius of the Site were reported to be listed in the RCRIS-TS Report.

CONCLUSION: No concerns exist at the Site based on the ERIIS database search.

5. Resource Conservation and Recovery Information System - Corrective Action (CA) Report - The RCRIS-CA Report contains information pertaining to hazardous waste treatment, storage and disposal facilities (RCRA TSDs) which have conducted or are currently conducting corrective actions as regulated by the Resource Conservation and Recovery Act. The following information also is included in the RCRIS-CA Report: information regarding the status of facilities tracked by the RAATS; inspections and evaluations conducted by Federal and State Agencies; all reported facility violations, the environmental statutes violated and any proposed and actual penalties; information pertaining to corrective actions undertaken by the facility or the USEPA; and a complete listing of USEPA regulated hazardous wastes which are generated or stored on-site.

FINDING: The Site is a portion of the GM Clark Avenue Facility which was reported to be listed in the RCRIS-CA Report (see Section 3.9 for discussion). No sites within a one-mile radius of the Site were reported to be listed in the RCRIS-CA Report.

CONCLUSION: The Site is a portion of the GM Clark Avenue Facility which was reported in the database search to be listed in the RCRIS-CA Report. Specific discussion regarding hazardous waste is presented in Section 3.9.

6. Resource Conservation and Recovery Information System - Large Quantity Generators (RCRIS-LG) Report - The RCRIS-LG Report contains information regarding facilities that either generate more than 1,000 kilograms (kg) of USEPA regulated hazardous waste per month or meet other applicable requirements of RCRA. The following information also is included in the RCRIS-LG Report: information regarding the status of facilities tracked by the RAATS; inspections and evaluations conducted by Federal and State Agencies; all reported facility violations, the environmental statutes violated and any proposed and actual penalties; information pertaining to corrective actions undertaken by the facility

**Privileged and Confidential
Prepared at General Motors
Counsel's Request**

or the USEPA; and a complete listing of USEPA regulated hazardous wastes which are generated or stored on-site.

FINDING: The Site was not reported to be listed in the RCRIS-LG Report. The GM Clark Avenue Facility was not reported to be in the RCRIS-LG Report. No sites within a quarter-mile radius of the Site were reported to be listed in the RCRIS-LG Report.

CONCLUSION: No concerns exist at the Site based on the ERIIS database search.

7. Resource Conservation and Recovery Information System - Small Quantity Generators (RCRIS-SG) Report - The RCRIS-SG Report contains information regarding facilities that either generate between 100 kg and 1,000 kg of USEPA regulated hazardous waste per month or meet other applicable requirements of RCRA. The following information also is included in the RCRIS-SG Report: information regarding the status of facilities tracked by the RAATS; inspections and evaluations conducted by Federal and State Agencies; all reported facility violations, the environmental statutes violated and any proposed and actual penalties; information pertaining to corrective actions undertaken by the facility or the USEPA; and a complete listing of USEPA regulated hazardous wastes which are generated or stored on-site.

FINDING: The Site was not reported to be listed in the RCRIS-SG Report. The GM Clark Avenue Facility was not reported to be in the RCRIS-SG Report. No sites within a quarter-mile radius of the Site were reported to be listed in the RCRIS-SG Report.

CONCLUSION: No concerns exist at the Site based on the ERIIS database search.

8. Emergency Response Notification System - ERNS is a national computer database system that is used to store information on the sudden and/or accidental release of hazardous substances, including petroleum, into the environment. The ERNS reporting system contains preliminary information on specific releases including the spill location, the substance released and the responsible party. The information in the ERNS Report pertains only to those releases that occurred between 1986 and June 11, 1997.

**Privileged and Confidential
Prepared at General Motors
Counsel's Request**

FINDING: The Site is a portion of the GM Clark Avenue Facility which was reported to be listed in the ERNS for releases which occurred in August 1990, September 1990, February 1991 and June 1992 (see Section 3.16 for discussion). A spill of sodium hydroxide was reported to have occurred at 2441 Clark Street (Site) in March 1997 (see Section 3.16 for discussion).

CONCLUSION: The Site is a portion of the GM Clark Avenue Facility which was reported to be listed in the ERNS database. The Site was also reported in the database search to be in the ERNS. Specific discussion regarding spills is presented in Section 3.16.

9. Toxic Release Inventory (TRI) System of 1994 - The 1994 TRI Report contains information on the industrial release and/or transfer of toxic chemicals as reportable under Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA Title III).

FINDING: The Site is a portion of the GM Clark Avenue Facility which was reported to be listed in the 1994 TRI Report for having released sulfuric acid, copper compounds, cyanide compounds, nickel compounds, chlorine, hydrochloric acid, chromium compounds, sodium hydroxide, methyl ethyl ketone, naphthalene, sodium sulfate, 2-ethoxyethanol, phosphoric acid, diethyl phthalate, 1,2,4-trimethylbenzene, benzene, butyl benzyl phthalate, zinc, methanol, toluene, xylenes, phosphorus, di(2-ethylhexyl)phthalate, acetone and glycol ethers (see Section 3.16 for discussion). No adjacent sites were reported to be listed in the 1994 TRI Report. The following sites within a one-mile radius of the Site were reported to be listed in the 1994 TRI Report:

<u>Facility</u>	<u>Address</u>	<u>Chemicals Released</u>
Secodyne Inc.	3255 Goldner Street	Acrylamide, Formaldehyde, Methanol
Magni Ind. Inc.	2771 Hammond Street	n-Butyl Alcohol, Xylenes, MEK, Aluminum, Zinc, Nickel, Glycol Ethers

CONCLUSION: The Site is a portion of the GM Clark Avenue Facility which was reported in the database search to be in the 1994 TRI Report. Specific discussion regarding spills is presented in Section 3.16. Specific discussion regarding reportable chemicals under Sara Title III is presented in Section 3.18.

**Privileged and Confidential
Prepared at General Motors
Counsel's Request**

10. Civil Enforcement Docket - Docket is the USEPA's System for tracking judicial cases filed on the USEPA's behalf by the Department of Justice. The Docket Report contains information on cases from 1972 to the present.

FINDING: The Site was not reported to be listed in the Docket Report. The GM Clark Avenue Facility was not reported to be in the Docket Report. No adjacent sites were reported to be listed in the Docket Report. The following sites within a one-mile radius of the Site were reported to be listed in the Docket Report:

<u>Facility</u>	<u>Address</u>	<u>Disposition</u>
Detroit City	2633 Michigan Avenue	Not Reported
Midwest Suspension & Brake	3411 West Fort Street	Consent Decree With Penalty

CONCLUSION: No concerns exist at the Site based on the ERIIS database search.

2.1.2 STATE DATABASES

1. Michigan Environmental Contamination (Act 451, Part 201; formerly Act 307) List - The Michigan Environmental Contamination List contains summary information pertaining to sites that are deemed potentially hazardous by the Michigan Department of Environmental Quality (MDEQ).

FINDING: The Site was not reported to be on the Michigan Environmental Contamination List. The GM Clark Avenue Facility was not reported to be on the Michigan Environmental Contamination List. No adjacent sites were reported to be on the Michigan Environmental Contamination List. The following sites within a one-mile radius of the Site were reported to be on the Michigan Environmental Contamination List:

<u>Facility</u>	<u>Address</u>
Welcome Center Ambassador Prop	1428 21st Street
Rockwell Former	West Fort Street At Clark Street
Ambassador Bridge Customs	Howard Street At 21st Street

CONCLUSION: No concerns exist at the Site based on the ERIIS database search.

**Privileged and Confidential
Prepared at General Motors
Counsel's Request**

2. Michigan Facility and Tank Data Report - The Michigan Facility and Tank Data Report is a comprehensive listing of all registered active and inactive underground storage tank (USTs) located within the State of Michigan.

FINDING: The Site is a portion of the GM Clark Avenue Facility which was reported to be listed in the Michigan Facility and Tank Data Report for having removed 35 USTs (see Section 3.5 for discussion). No sites within a quarter-mile radius of the Site were reported to be listed in the Michigan Facility and Tank Data Report.

CONCLUSION: The Site is a portion of the GM Clark Avenue Facility which was reported to be listed in the Michigan Facility and Tank Data Report (see Section 3.5 for discussion).

3. Michigan Leaking Underground Storage Tank (LUST) Report - The Michigan LUST Report, consisting of listings maintained by the Michigan Department of Environmental Quality and the Michigan Department of State Police, is a comprehensive listing of all reported active and inactive LUSTs located within the State of Michigan.

FINDING: The Site is a portion of the GM Clark Avenue Facility which was reported to be listed in the Michigan LUST Report (see Section 3.5 for discussion). No adjacent sites were reported to be listed in the Michigan LUST Report. The following sites within a half-mile radius of the Site were reported to be listed in the Michigan LUST Report:

<u>Facility</u>	<u>Address</u>
BP Oil	4400 West Vernor Highway
Shell Service Station	1715 Michigan Avenue
DPW Street Maintenance	2633 Michigan Avenue
Firestone Store #2533/006165	1801 Michigan Avenue
R&M Shearing & Processing	4086 Michigan Avenue
Sams Motors	829 West Grand Blvd.
Dewitt Products Co.	5860 Plumer Street
F&H Mini Mart Inc.	4615 Michigan Avenue
Farmer Jack Supermarket #3	3830 West Vernor Highway
Mahnond Alley	3801 West Vernor Highway
Jerry Churchill Inc.	2455 24th Street

CONCLUSION: The Site is a portion of the Clark Avenue Facility which was reported to be listed in the Michigan LUST Report (see Section 3.5 for discussion).

4. Michigan Solid Waste Facilities (SWF) Report - The Michigan SWF Report is a comprehensive listing of all inactive and active solid waste landfills and processing facilities located within the State of Michigan.

FINDING: The Site was not reported to be listed in the Michigan SWF Report. The GM Clark Avenue Facility was not reported to be in the Michigan SWF. No sites within a half-mile radius of the Site were reported to be listed in the Michigan SWF Report.

CONCLUSION: No concerns exist at the Site based on the ERIIS database search.

2.2 HISTORICAL RECORDS REVIEW

2.2.1 SANBORN FIRE INSURANCE MAPS

Sanborn Fire Insurance Maps assist in the identification of historic land use and commonly indicate the existence and location of aboveground and underground storage tanks, structures, improvements and facility operations. Sanborn Maps were available for the Site and reviewed by CRA for the years 1897, 1921, 1950, 1988 and 1991. Copies of the available Sanborn Maps are presented in Appendix B.

The 1897 Sanborn Map indicated that the Site was occupied by stores, residential dwellings, a cooper shop, and vacant land. The adjacent property located north of the Site was occupied by the Calvin K. Brandon Stave & Heading Factory and railroad spurs. The property located opposite the Site on the west side of McKinstry Avenue was occupied by residential dwellings, sheds, and vacant land. The property located opposite the Site on the south side of Brandon Avenue was occupied by residential dwellings, stores, and sheds. The property located opposite the Site on the east side of Clark Avenue was occupied by residential dwellings, sheds, and vacant land.

The 1921 Sanborn Map indicated that the Site was occupied by residential dwellings, flats, stores, private garages, and sheds. The adjacent property located north of the Site was occupied by the George McClure Dressed & Kiln Dried Hardwood Lumber

**Privileged and Confidential
Prepared at General Motors
Counsel's Request**

Company and railroad spurs. Several additional residential dwellings and a store were located opposite the Site on the west side of McKinstry Avenue. The sheds located opposite the Site on the south side of Brandon Avenue were replaced by private garages. The land use of the other property in the vicinity of the Site remained primarily the same as the land use indicated on the 1897 map.

The 1950 Sanborn Map indicated that several of the sheds located on the Site and on the property in the vicinity of the Site were replaced by private garages. The adjacent property located north of the Site was occupied by railroad spurs, a parking lot, and vacant land. A stamping and tool shop was located on a portion of the property located opposite the Site on the west side of McKinstry Avenue. The property located opposite the Site on the east side of Clark Avenue was occupied by a fender warehouse and shipping company, offices, a motor freight station, a coal yard, residential dwellings, and private garages. Oil tanks were located further to the east and north of this property associated with Ira Wilson and Sons Dairy Company on Scotten Avenue and Howard Flint and Ink Company located to the northeast of the Site. These oil tanks were approximately 10,000 to 20,000 gallons in size. The land use of the other portions of the Site and the other property in the vicinity of the Site remained primarily the same as the land use indicated on the 1921 map.

The 1988 and 1991 Sanborn Maps indicated that the Site was occupied by several oil tanks and a building. Further investigation identified that three general waste holding tanks, three oily waste tanks, one floatation recycle tank, two sludge thickener tanks, one clarifier, and Building 45 were present in the 1988 and 1991 Sanborn Maps. The adjacent property located north of the Site was occupied by the Cadillac Plant and parking lot. The stamping and tool shop located opposite the Site on the west side of McKinstry Avenue in the 1950 Sanborn Map was no longer present in the 1988 Sanborn Map. The property located opposite the Site on the east side of Clark Avenue was occupied by an office and parking lots. The land use of the other property in the vicinity of the Site remained primarily the same as the land use indicated on the 1950 map.

CONCLUSION: Based on the review of Sanborn Maps, prior Site usage includes shops, residential dwellings, stores, sheds, and garages.

2.2.2 PROPERTY TITLE SEARCH

CRA contracted Milliken & Michaels Credit Services to conduct a search of property title records and other documents (lease agreements, easements, etc.), dated from at least 1940 (or the date of the first recorded deed) to the present, associated with ownership or occupation of the Site. The following entities were reported to be associated with ownership or occupation of the Site during the specified time periods:

Tract 1:

Lot 1:

John Welch	Unreported – May 1933
Newdeal Limited Corp.	May 1933 – February 1942
David & Kate Kopeikin	February 1942 – April 1952
Arthur J. & Mildred C. Mills	April 1952 – September 1971
General Motors Corporation	September 1971 – Present

Lot 2:

Walter DeComnte	Unreported – November 1931
James & Margaret Borland	November 1931 – November 1948
Lionel Hampton	November 1948 – April 1952
Arthur J. & Mildred C. Mills	April 1952 – September 1971
General Motors Corporation	September 1971 – Present

Lot 3:

Gustav Kale	Unreported – July 1921
William H. & Jeannie Price	July 1921 – June 1953
Arthur J. & Mildred C. Mills	June 1953 – September 1971
General Motors Corporation	September 1971 – Present

Lot 4:

John Neverman, et ux	Unreported – January 1928
William Long, et ux	January 1928 – April 1947
James Slack, et al	April 1947 – September 1959

**Privileged and Confidential
Prepared at General Motors
Counsel's Request**

Thomas & Dolores All	September 1959 – April 1966
Peter Krivisky	April 1966 – April 1966
Commercial Carriers, Inc.	April 1966 – April 1971
Harm & Ruby Ratliff	April 1971 – April 1971
General Motors Corporation	April 1971 – Present

Lot 5:

Home Construction Company	Unreported – January 1926
Bernard & Philipine Droste	January 1926 – May 1947
Frank Droste	May 1947 – June 1948
Minnie Clair	June 1948 – January 1954
Arthur J. & Mildred C. Mills	January 1954 – September 1971
General Motors Corporation	September 1971 – Present

Lot 6:

Rose Thomas	Unreported – April 1936
Emma Bartel and Eva Wells	April 1936 – March 1948
Eva Wells	March 1948 – August 1956
Walter Kempa	August 1956 – June 1960
Tommy Tolliver	June 1960 – April 1966
Peter Krivisky	April 1966 – April 1966
Commercial Carriers, Inc.	April 1966 – June 1971
Lindell & Wanda Waston	June 1971 – June 1971
General Motors Corporation	June 1971 – Present

Lot 7:

Phillip & Emma Bertel	Unreported – August 1928
Blas Crnkovich, et ux	August 1928 – October 1941
George & Marie Jacobs	October 1941 – March 1944
Marie Jacobs	March 1944 – February 1966
Gordon Allen, et ux	February 1966 – April 1966
Commercial Carriers, Inc.	April 1966 – June 1971
Robert E. & Darlene Kinder	June 1971 – June 1971
General Motors Corporation	June 1971 – Present

**Privileged and Confidential
Prepared at General Motors
Counsel's Request**

Lot 8:

Frank Slumpa, et ux	Unreported – December 1939
Olga Kopacz	December 1939 – July 1947
James Slack, et ux	July 1947 – February 1955
Norman Monnig	February 1955 – March 1955
Earl Carvers, et ux	March 1955 – October 1960
George Yost, et ux	October 1960 – April 1966
Ernest MacDonald	April 1966 – April 1966
Commercial Carriers, Inc.	April 1966 – April 1971
Philip R. & Patricia Ratliff	April 1971 – April 1971
General Motors Corporation	April 1971 – Present

Lot 9:

Harold Veverman	Unreported – September 1935
Donald Reeck, et ux	September 1935 – October 1943
Peter Sendvitis, et ux	October 1943 – August 1945
Emanuel Atfard, et ux	August 1945 – March 1946
Diah & Marvis Naif	March 1946 – July 1946
Diah Naif	July 1946 – September 1946
Victor & Verna Zenda	September 1946 – November 1946
Helen Majewski	November 1946 – November 1946
Verna Zenda	November 1946 – April 1956
Mary Sochalski and Edwin Sochalski	April 1956 – August 1963

General Motors Corporation	August 1966 – Present

Parcel 2:

Consolidated Rail Corporation	Unreported – October 1976
General Motors Corporation	October 1976 – Present

The following easements were reported to be associated with the Site:

<u>Grantor</u>	<u>Grantee</u>	<u>Date Recorded</u>
The Michigan Central Railroad Co.	General Motors Corp.	August 30, 1966
The New York Central Railroad Co. and The Detroit Bank & Trust Company		
Consolidated Rail Corp.	General Motors Corp.	October 20, 1976

No leases or environmental liens were reported to be associated with the Site.

2.2.3 HISTORIC AERIAL PHOTOGRAPHY REVIEW

Aerial photographs from the years 1937, 1949, 1952, 1956, 1961, 1966, 1970, 1972, 1975, 1981, 1985, 1990, and 1995 were obtained and reviewed for the Site to determine the historic uses of the Site and to identify activities and land uses at surrounding properties which may have potentially impacted the Site. Selected aerial photographs are presented in Appendix D. The following information was interpreted from the review of aerial photographs.

The 1937, 1949, 1952, 1956, and 1961 aerial photographs indicated that the Site was historically a residential area. The Site was bounded to the south by Brandon Avenue; to the west by McKinstry; to the east by Clark Avenue; and to the north by Plumer Avenue. The surrounding property usage to the west, south, and southeast was residential. The property to the north was historically used as a parking area. The property to the northeast appeared to be an industrial area until the 1970s. In the 1981 aerial photograph, the industrial area had been re-developed as a parking area.

The 1972 aerial photograph identified that residences that were historically at the Site had been demolished and the Site appeared to be under redevelopment. In the 1975 aerial photograph, some large, above ground storage tanks and a building were present at the Site. Additional tanks were identified at the Site in the 1981 aerial photograph.

**Privileged and Confidential
Prepared at General Motors
Counsel's Request**

The Site remained unchanged in the subsequent 1985, 1990, and 1995 aerial photographs, however, it is apparent in the 1990 aerial that significant demolition activity is ongoing at the former GM Cadillac Motor Car Division at Clark Avenue, to the north of the Site.

CONCLUSION: Based on the review of the identified aerial photographs, the Site was used as a residential area until the 1960s. In 1972, the Site was redeveloped for industrial purposes.

3.0 SITE REVIEW

3.1 HISTORICAL SITE ASSESSMENTS

3.1.1 USEPA PRELIMINARY ASSESSMENT AND VISUAL SITE INSPECTION – OCTOBER/NOVEMBER 1991

In October and November 1991, the United States Environmental Protection Agency (USEPA) conducted a Preliminary Assessment (PA) and visual Site Inspection (VSI) of the Clark Avenue Facility. The PA/VSI included a review of the history and operations, inspection of current conditions, and summary of environmental concerns. The PA/VSI identified Solid Waste Management Units (SWMUs) and Areas of Concern (AOCs) (as identified by the USEPA in the PA/VSI), at the Clark Avenue Facility. Eleven SWMUs and no AOCs were identified by the USEPA at the Clark Avenue Facility. Of the eleven SWMUs, one is located at the Site. The following provides a description of the SWMU and is based upon the information presented in the PA/VSI only:

SWMU 4: Wastewater Treatment Plant

The Wastewater Treatment Plant historically treated all industrial wastewater and surface run off generated at the Clark Avenue Facility prior to discharge into the Detroit sewer system. The wastewater plant was capable of treating general and oily wastewaters as well as acid/alkali and cyanide-bearing wastewaters generated by the Clark Avenue Facility electroplating operations. The Wastewater Treatment Plant generated a listed wastewater treatment sludge (F006) that was disposed of at an off Site landfill. Reclaimed waste oil was sold to an off Site recycling facility.

Portions of the Wastewater Treatment Plant were originally constructed in 1970. The general and oily wastewater treatment system began operating in 1974. Electroplating wastewater treatment construction was completed in 1980 and operation (treatment of electroplating waste) began in 1981.

The Wastewater Treatment Plant was still in operation at the time the PA/VSI was conducted, however, all wastewater treatment and oil reclamation operations have since been shut down.

**Privileged and Confidential
Prepared at General Motors
Counsel's Request**

The Wastewater Treatment Plant managed wastewater and surface runoff generated throughout the Clark Avenue Facility. The Wastewater Treatment Plant historically generated treatment sludge (F006) that was treated at an off Site treatment facility (Envirite) in Canton, Ohio.

The PA/VSI indicated that Building 45 (wastewater treatment building) had floor drains to contain spills, that cyanide wastewater was managed in sealed tanks to limit air emissions, and that no secondary containment was provided for the outdoor tanks. These tanks were observed to be in good condition during the PA/VSI, with no cracks or corrosion. No releases or spills were identified during the PA/VSI.

3.2 REVIEW OF SITE RECORDS/SITE INSPECTION

This Phase I ESA presented in this report is based upon the Phase I ESA Site inspection activities completed by CRA on February 6, 1998. The Site inspection included an inspection of the Site structure, review of relevant Site records, and interviews with GM personnel associated with the Site.

3.2.1 SITE OVERVIEW

The Oil Reclamation Facility comprises a 3.6 acre parcel of land in Detroit, Michigan. Most of the area is covered by structures including three metal buildings and 27 outdoor aboveground storage tanks (ASTs). Twenty-one ASTs are located inside Building 45. ASTs range in size from 3,000 to 1,000,000 gallons (see Section 3.6).

The Oil Reclamation Facility was originally operated as the GM Clark Avenue Waste Treatment Facility to service automotive assembly and electroplating operations at the Cadillac Plant. The Waste Treatment Facility provided cyanide oxidation, hexavalent chromium reduction, demulsification and skimming of used oil, heavy metal precipitation, removal of suspended solids, and pH adjustment. The Waste Treatment Facility generated an electroplating sludge (F006) as a waste product of electroplating wastewater treatment.

With the shutdown of Cadillac Plant automotive assembly operations in 1987, the waste treatment plant existed solely for the treatment of wastewaters from the electroplating operation. In 1989, the waste treatment facility began using its idle capacity to reprocess used oils from other GM facilities. Following the shutdown of the electroplating

operations in 1992, the sole operation of the waste treatment plant was the reclamation of used oil.

The used oil was received in tanker trucks and was treated by heating it in one of three closed top 400,000 gallon tanks converted for this use. The used oil separated into three layers; reclaim oil; "rag"; and bottom layer wastewater. The "rag" and bottom layer wastewater were drawn off and treated in the wastewater treatment system. Sludge generated from the additional treatment of the "rag" was dewatered and hauled off-Site for disposal. The treated wastewater was discharged to the City of Detroit combined sanitary sewer system. The reclaimed oil was sold to local oil reclaimers and refiners. In 1994, the oil reclamation facility processed its maximum capacity of nine million gallons of used oil.

In April 1997, the Oil Reclamation Facility stopped receiving used oil. In July 1997, the facility stopped treating the surplus oil stored on Site. In November 1997, the Site was shut down and water was no longer discharged to the sanitary sewer system.

Three buildings exist on Site. Building 45 (waste treatment building) is a 14,087 square foot, three-story metal building, constructed on a concrete slab. The first floor is 12,897 square feet and the remaining space is distributed over a mezzanine and partial second floor containing 1,190 square feet. The building houses ASTs, sumps, piping and piping trenches, offices, a laboratory, and chemicals which were once used in the oil reclamation and wastewater treatment operations. Raw materials received and used in the past at the Oil Reclamation Facility consisted of a variety of chemicals, including sulfuric acid, hydrochloric acid, lime, aluminum sulfate, sodium hydroxide, used oil, and smaller quantities of maintenance cleaners, aerosols, lubricants, and miscellaneous supplies.

Building 46 (pump house) is approximately 480 square feet. Building 46 is constructed of metal siding on a concrete slab. The pump house was used to pump solids from the clarifiers to the sludge thickener tanks.

Building 48 (sand filter and pump house) is approximately 1,700 square feet and is constructed of metal siding on a concrete slab. When in operation, this building housed the final treatment stage of wastewater prior to discharge to the sanitary sewer system.

3.3 ENVIRONMENTAL SETTING/ADJACENT PROPERTIES

The Site is located at 2860 Clark Avenue, Detroit, Michigan, however, the shipping and receiving address of the Oil Reclamation Facility subsequent to 1996 has been identified as 2441 Clark Avenue (see Figure 1.1). The Site is located in a mixed industrial, commercial, and residential area of Wayne County. Access to the Site is available from the west side of Clark Avenue, at the northeast side of the Site (see Figure 1.2). Site photographs are presented in Appendix E.

The Site is bordered to the north by a paved parking area and Gonzalez Manufacturing/Ideal Steel in the Hispanic Manufacturing Center; to the west by McKinstry Street and residential properties; to the south by Brandon Avenue and residential properties; and to the east by Clark Avenue and Craftsman Credit Union.

The Site is generally flat with insignificant topographic relief. Stormwater catch basins exist across the Site.

The Site is located on the southeastern edge of the Michigan Basin, a regional geologic feature that includes sedimentary rocks of the Paleozoic age.

An accumulation of unconsolidated sediment deposits cover most of the Michigan area, formed during the glaciation of the Pleistocene Epoch. The lacustrine glacial till is comprised of sand, silt, and clay, and has a thickness of 101 to 200 feet (Hydrogeologic Atlas of Michigan, Western Michigan University, 1981). The glacial till in the vicinity of the Site was reported in previous investigations to be 111 to 125 feet thick. The underlying bedrock is reported to be limestone of the Dundee Limestone, a late Devonian formation. The Dundee Limestone is generally a highly fractured, brown, carboniferous rock.

The stratigraphy at the Site is expected to contain two water bearing zones: a shallow perched water zone within the surficial fill, and an aquifer within the limestone bedrock beneath the regionally extensive lacustrine glacial till.

Surficial groundwater in this area of Wayne County is generally considered to be perched water (i.e., groundwater not in an "aquifer" pursuant to Act 451). This is due to the fact that the groundwater is discontinuous and has only a limited yield.

3.4 UTILITY SERVICES

Potable water is provided by the City of Detroit Water and Sewerage Department. Site personnel were unaware of any on Site wells. No evidence of water wells was noted during the Site inspection or the review of available information.

Combined sanitary and storm sewer services are provided by the City of Detroit Water and Sewerage Department. Site personnel were unaware of any on Site septic systems. No evidence of a septic system was noted during the Site inspection or the review of information.

Electricity is provided by The Detroit Edison Company (Detroit Edison). Natural gas was supplied by Michigan Consolidated Gas Company (Mich Con), until Site operations were suspended.

3.5 UNDERGROUND STORAGE TANKS (USTs)

The Michigan Department of Environmental Quality (MDEQ) Underground Storage Tank Division (USTD) indicated that 39 USTs have been removed from the GM Clark Avenue Facility. According to GM files, there were no USTs identified on the Site. CRA did not observe any physical evidence (e.g. vent pipes, fill ports, etc.) of USTs during the Oil Reclamation Facility inspection.

Based on the information reviewed during this Phase I ESA, there are no PAOCs on Site related to USTs.

3.6 ABOVEGROUND STORAGE TANKS (ASTs)

Forty-eight ASTs are located at the Oil Reclamation Facility, including ASTs located in Building 45. ASTs were historically utilized for the processing and storage of wastewater and reclaimed oil. The following summarizes exterior ASTs.

<u>Tank ID No.</u>	<u>Capacity</u>	<u>Description/Former Use</u>

SH-1	8,000	Sodium Hydroxide
SH-2	10,000	Sodium Hydroxide
SHC-1	3,000	Sodium Hydroxide
MH-1	8,000	Magnesium Hydroxide

The majority of the ASTs at the Oil Reclamation Facility were not provided with secondary containment and combined sewer drains were located throughout the AST area.

Based on the information reviewed during this Phase I ESA, there are no PAOCs on Site related to ASTs.

3.7 RAW MATERIAL USAGE AND STORAGE

Currently, the Site does not receive any raw materials, however, many materials that were received in the past still exist in small quantities at the Site and are stored in ASTs, drums, and/or a flammable storage cabinet.

Raw materials received and used in the past at the Oil Reclamation Facility consisted of sulfuric acid, hydrochloric acid, lime, aluminum sulfate, sodium hydroxide, used oil, and smaller quantities of maintenance cleaners, aerosols, lubricants, and miscellaneous supplies.

The majority of raw materials used in the past were stored in ASTs and 55-gallon drums both inside and outside of Building 45. The ASTs and 55-gallon drums were not provided with secondary containment. Small quantities of raw materials (maintenance cleaners, aerosols, lubricants, etc.) and miscellaneous supplies were stored in a flammable storage cabinet.

Based on the information reviewed during this Phase I ESA, there are no PAOCs on Site related to raw material use and storage.

3.8 SOLID AND SPECIAL WASTE

According to Site personnel, City Management Corporation picks up a 4 cubic yard box of general office waste once per month.

Historically, in addition to the above, United States Pollution Control, Inc. (USPCI) picked up one 23 cubic yard roll off box of non-hazardous oily sludge cake once a day, 5 days per week, which included waste lime solids and waste oil solids until November 1997.

Site personnel were not aware of any on-Site disposal of solid waste at the Site.

Based on the information reviewed during this Phase I ESA, there are no PAOCs on Site related to solid and special waste.

3.9 HAZARDOUS WASTE

According to Site personnel and GM files, the Site does not currently generate hazardous waste, nor did it generate hazardous waste as an Oil Reclamation Facility. Site personnel indicated that it did generate hazardous waste when the Site operated as the Wastewater Treatment Plant for assembly and plating operations related to the Clark Avenue Facility. The Site generated USEPA listed hazardous waste number F006 which is wastewater treatment sludges from electroplating operations. The Site was covered under the Clark Avenue Facility generator identification number (MID 005356704).

Based on the information reviewed during this Phase I ESA, there are no PAOCs on Site related to hazardous waste.

3.10 WASTEWATER/SEWERS

Wastewaters generated at the Site currently includes sanitary wastewater from Site toilets and sinks. Wastewater generated at the Site is discharged to the City of Detroit

**Privileged and Confidential
Prepared at General Motors
Counsel's Request**

combined sewer system along McKinstry Avenue. Former wastewater discharge included treated wastewaters from Cadillac Plant operations. GM was issued Permit No. 914-006 on March 16, 1997. This permit expires September 1, 1998.

Based on the information reviewed during the Phase I ESA, there are no PAOCs on Site related to wastewaters generated at the Site.

3.11 STORMWATER

Stormwater generated at the Site includes surface runoff from building roof tops and paved areas. Stormwater is collected via combined storm and sanitary sewer catch basins located across the Site, and drains to the McKinstry Avenue combined sewers. Stormwater generated in the AST farm area at the Site, infiltrates through the gravel surface and into the Site soils. No industrial activity which may, potentially, impact stormwater quality was observed to occur at the Site.

Based on the above and information reviewed during the Phase I ESA there are no PAOCs on Site related to stormwater generated at the Site.

3.12 AIR EMISSIONS

No operating air emission sources were observed during the Site inspection. Air emission sources which were permitted under Certificates of Operation from the Wayne County Department of Health, Air Pollution Control Division, included the cyanide waste treatment ozonator, the scrubber, the five floatation waste units, and the package boiler.

Several violation notices dating back to 1992 were on file with the Wayne County Department of Health, Air Pollution Control Division. These violations were for causing or permitting emissions of significant odor from the Site. As a result of the violations, GM entered into a Consent Order with the Wayne County Air Quality Management Division, dated May 12, 1997, which required the shutdown of the facility in July 1997.

Based on the information reviewed during the Phase I ESA, there are no PAOCs on Site related to air emissions.

3.13 ASBESTOS CONTAINING MATERIALS (ACM)

There is no known friable ACM present at the Site, according to Site records. CRA observed no friable potential ACM during the Site inspection.

Non-friable potential ACM noted by CRA included ceiling and floor tiles located in office areas. Even if ACM, these items should not pose a health hazard unless disturbed. Additionally, potential ACM may be present behind walls on other permanent structures that were not accessible to CRA during the Site inspection.

Based on the information reviewed during the Phase I ESA, there are no PAOCs on Site related to ACM.

3.14 POLYCHLORINATED BIPHENYLS (PCBs)

Electrical power for the Oil Reclamation Facility is supplied by Detroit Edison through three GM-owned transformers. GM personnel indicated that the newer pad-mounted transformer located outside was installed new in 1994 and does not contain PCBs. The two transformers located within Building 45 are General Electric dry-type transformers. No additional electrical equipment potentially containing PCBs was observed by CRA during the Site inspection.

Based on the information reviewed during the Phase I ESA, there are no PAOCs on Site related to PCBs.

3.15 IONIZING RADIATION

CRA did not observe any source of ionizing radiation during the Site inspection. The Site is in a Level 3 radon zone. The predicted indoor screening levels of radon gas are expected to be less than 2 pCi/L.

Based on the information reviewed during the Phase I ESA, there are no PAOCs on Site related to ionizing radiation.

3.16 SPILLS/RELEASES

Seven spills were identified to have occurred at the Site between November 1987 and March 1992 through review of GM spill report files. Of the five releases reported in ERNS (see section 2.1.1) to have occurred at the GM Clark Avenue Facility, only the releases dated February 1991 and March 1997 were associated with the Site. The following summarizes each spill identified during the file review.

On November 22, 1987, GM personnel observed a release from oily waste tank no. 1. An unknown amount (estimated between 1.5 gallons and 2,160 gallons) of oily wastewater was reported released to the surrounding gravel and soil at oily waste tank no. 1. Records indicate that this release was caused by a valve failure.

Approximately 200 gallons of acid/alkali wastewater was spilled onto the ground and into the piping trench between acid/alkali holding tanks nos. 1 and 2 on September 1, 1989. According to files, the spill was neutralized with sodium carbonate. Files indicate that this release was caused by a ruptured discharge line inside the piping trench.

On February 9, 1991, a cyanide wastewater release was reported. Records indicate that 21,022 gallons of cyanide wastewater were released from cyanide tank no. 2. The cyanide wastewater was released to the gravel area surrounding the tank, the pipe trench, and the Clark Avenue sewers. Approximately 300 gallons of cyanide wastewater entered the Clark Avenue sewers. Vacuum trucks were utilized to clean the pipe trench. This release was caused by a broken valve and pipe at the bottom outlet of tank no. 2. This release was identified in the ERNS (see Section 2.1.1). This release was reported to the National Response Center, Michigan Department of Natural Resources (MDNR) Emergency Planning and Right-To-Know Commission, MDNR – Environmental Response Division (ERD), City of Detroit Industrial Waste Control of the Water and Sewerage Department and the MDNR Pollution Emergency Alert System. A Site Assessment Report for Copper-Cyanide Wastewater Release was prepared in June 1991. This report indicated that Site soils in the vicinity of the cyanide treatment tanks had copper concentrations as high as 99 parts per million (ppm) and cyanide concentrations detected at a maximum of 0.63 ppm.

On February 15, 1991, 2,000 gallons of oily wastewater were released. This release occurred to the west of Building 45 and was caused by an open valve on the lime unload line. Jelly Stopper and Speedy Dry was used to contain the spill

**Privileged and Confidential
Prepared at General Motors
Counsel's Request**

On June 7, 1991, 80,000 gallons of acid/alkali waste rinse water was released from acid/alkali holding tank no. 3. This release was reported to have entered the concrete piping trench and catch basins. This release was caused by a ruptured process line. City of Detroit Industrial Waste Control of the Water and Sewerage Department were notified that 300 gallons of this release entered the catch basin located southwest of the corner of Building 45.

On January 20, 1992, 300 gallons of magnesium hydroxide overflowed the magnesium tank in Building 45 on the first floor. The spill was pumped into a treatment tank. This spill was caused by a mechanical seal failure.

On March 6, 1992, 3,000 gallons sulfuric acid (1 part) and water (5 parts) leaked from a storage tank on the second floor of Building 45 onto an electrical substation causing an electrical fire. The acid and water mixture was dyked and diverted to a holding tank and returned to system.

An additional release was reported under the ERNS for 2441 Clark Avenue (Site). This release was reported to be a 4,600 gallon sodium hydroxide release caused by a valve freezing in March 1997. The release was secured and the spill was cleaned up through use of vacuum trucks. GM personnel indicated that affected soil was excavated and removed from Site.

During the Site inspection, significant surficial concrete staining was identified on the first floor of Building 45 below the filter presses.

Surficial staining of asphalt located along the southern perimeter of Building 45 was identified during the Site inspection.

In addition to the above, surficial staining of gravel between oily waste holding tank no. 2 and the floatation recycle tank was identified during the Site inspection.

Based on the information reviewed during the Phase I ESA, there are several PAOCs on Site related to spills/releases including oily wastewater spills, acid/alkali releases, copper-cyanide wastewater spill, sodium hydroxide release from a tractor trailer tank, the surficial concrete staining in Building 45 below the filter press area, and along the southern perimeter of Building 45.

3.17 CERCLA LIABILITY POTENTIAL

The Site is not listed on the NPL or in the Docket database. According to available information, the Site has never received notification from any government agency or third party as to liability as a potentially responsible party for a hazardous waste storage, treatment, or disposal Site. CRA is not aware of any environmental-related claims or litigation asserted by any governmental agency or third party against the Site or any potential claims or litigation which presently exists.

Based on the information reviewed during the Phase I ESA, there are no PAOCs on Site related to CERCLA liability.

3.18 SARA TITLE III - EMERGENCY PLANNING AND COMMUNITY RIGHT-TO-KNOW ACT (EPCRA)

Site personnel indicated that an Emergency Action Plan was in place during Site operations.

A Draft Emergency Action Plan completed in February 1995 for the GM Clark Avenue Facility containing Sara Title III reporting information was reviewed. The contents of the Draft Emergency Action Plan identified the State Emergency Response Commission (SERC), Local Emergency Response Commissions (LERC), and the Local Fire Department as required under Section 304 of SARA Title III.

Based on information reviewed during the Phase I ESA, there are no PAOCs on Site related to SARA Title III.

4.0 SUMMARY OF IDENTIFIED PAOCs

Based on the Phase I Environmental Site Assessment including the Site inspection, information provided by Site personnel and regulatory agencies, documents reviewed, and the environmental database searches, the following PAOCs were identified at the Oil Reclamation Facility in Detroit, Michigan (see Figure 4.1):

- i) PAOC ORF-1: Significant surficial staining was identified on the gravel surface to the west of Building 45 between oily waste holding tank no. 3 and the floatation recycle tank.
- ii) PAOC ORF-2: Significant surficial staining was identified on the gravel surface to the west of Building 45 between oily waste holding tanks nos. 1 and 2.
- iii) PAOC ORF-3: Concrete staining was observed along the southern perimeter of Building 45. Cracks in the concrete and catchbasins were present in the vicinity of the staining.
- iv) PAOC ORF-4: Concrete staining was observed to the west of Building 45 near the ASTs provided with secondary containment. Cracks in the concrete and catchbasins were present in the vicinity of the staining.
- v) PAOC ORF-5: A chrome spill was reported to have occurred in September 1989 in the vicinity of acid/alkali holding tanks nos. 1 and 2 onto the gravel surface surrounding the acid/alkali holding tanks.
- vi) PAOC ORF-6: A copper-cyanide wastewater spill was reported to have occurred in February 1991 from cyanide treatment tank no. 2 onto the gravel surface surrounding the cyanide treatment tanks.
- vii) PAOC ORF-7: A sodium hydroxide release was reported on the south side of Building 45 from a tractor trailer tank in March 1997. Cracks in the concrete, catchbasins, and the gravel surface south of Building 45 were present in the vicinity of the release.
- viii) PAOC ORF-8: An acid/alkali release was reported in the vicinity of acid treatment tank no. 3 in June 1991 onto the gravel surface surrounding the acid/alkali holding tanks.

**Privileged and Confidential
Prepared at General Motors
Counsel's Request**

- ix) PAOC ORF-9: An oily wastewater release was reported to have occurred in February 1991 on the west side of Building 45. Cracks in the concrete and catchbasins were present in the vicinity of the release.
- x) PAOC ORF-10: Surficial concrete staining was identified in Building 45 on the first floor below the filter press area. Cracks in the concrete were present in the vicinity of the staining.

Emergency Response Notification System 1987-1996

ERNS is a national computer database system that is used to store information on the sudden and/or accidental release of hazardous substances, including petroleum, into the environment. The ERNS Reporting System contains preliminary information on specific releases, including the spill location, the substance released, and the responsible party. Please note that the information in the ERNS Report pertains only to those releases that occurred between 1987-1996.

National Priorities List

The NPL Report is an EPA listing of the nation's worst uncontrolled or abandoned hazardous waste sites. NPL sites are targeted for possible long-term remedial action under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980. In addition, the NPL Report includes information concerning cleanup agreements between EPA and Potentially Responsible Parties (commonly called Records of Decision, or RODS), any liens filed against contaminated properties, as well as the past and current EPA budget expenditures tracked within the Superfund Consolidated Accomplishments Plan (SCAP).

Comprehensive Environmental Response, Compensation, and Liability Information System

The CERCLIS Database is a comprehensive listing of known or suspected uncontrolled or abandoned hazardous waste sites. These sites have either been investigated, or are currently under investigation by the U.S. EPA for the release, or threatened release of hazardous substances. Once a site is placed in CERCLIS, it may be subjected to several levels of review and evaluation, and ultimately placed on the National Priorities List (NPL). In addition to site events and milestone dates, the CERCLIS Report also contains financial information from the Superfund Consolidated Accomplishments Plan (SCAP).

Resource Conservation and Recovery Information System - Small Quantity Generators

The RCRIS_SG Report contains information pertaining to facilities which either generate between 100kg and 1000kg of EPA regulated hazardous waste per month, or meet other applicable requirements of the Resource Conservation and Recovery Act. On advice of the U.S. EPA, ERIIS does not report so-called "RCRA Protective Filers." Protective Filers, commonly called Conditionally Exempt Small Quantity Generators (CESQG's), are facilities that have completed RCRA notification paperwork, but are not, in fact, subject to RCRA regulation. The determination of CESQG status is made by the U.S. EPA. The following information is also included in the RCRIS_SG Report:

- Information pertaining to the status of facilities tracked by the RCRA Administrative Action Tracking System (RAATS)
- Inspections & evaluations conducted by federal and state agencies
- All reported facility violations, the environmental statute(s) violated, and any proposed & actual penalties
- Information pertaining to corrective actions undertaken by the facility or EPA
- A complete listing of EPA regulated hazardous wastes which are generated or stored on-site

Resource Conservation and Recovery Information System - TSD's Subject to Corrective Action

The RCRIS_CA Report contains information pertaining to hazardous waste treatment, storage, and disposal Facilities (RCRA TSD's) which have conducted, or are currently conducting, a corrective action(s) as regulated under the Resource Conservation and Recovery Act. The following information is included within the RCRIS CA Report:

- Information pertaining to the status of facilities tracked by the RCRA Administrative Action Tracking System (RAATS)
- Inspections & evaluations conducted by federal and state agencies
- All reported facility violations, the environmental statute(s) violated, and any proposed & actual penalties
- Information pertaining to corrective actions undertaken by the facility or EPA
- A complete listing of EPA regulated hazardous wastes which are generated or stored on-site

If a selected database does not appear on this list, it is not available for the subject property's state.

DESCRIPTION: TRANSFORMER/TRANSPORTING THE TRANSFORMER AND THE TRAN SFORMER LEAKED										
MATERIAL SPILLED: PCB QTY: 3 GAL LBS: 38 QTY IN WATER: 0 NON										
ACTION TAKEN: USED SORBENT MATERIAL TO PICK UP THE MATERIAL, AND PLACED IN DRUMS, AN D CONTAINMENT AREA ON THE TRUCK WAS CLEANED UP										
MISCELLANEOUS: MR RALPH DOLLHOPE

Plumer Die Casting, a Partnership, Convey and Warrant to GENERAL
MOTORS CORPORATION, a Delaware Corporation, whose address is 3044
West Grand Boulevard, Detroit, Michigan 48202, the following
described premises situated in the City of Detroit, County of
Wayne, and State of Michigan, to-wit:

The Southerly part of Lots 5 and 6 of
"Bartholomew Estate Subdivision of part
of Private Claim 47 between Dix Avenue
and Albert Street, and part of Private
Claim 583, North of Toledo Avenue,
Detroit, Wayne County, Michigan, as
recorded in Liber 10 of Plats on Page
12 1/2, Wayne County Records, being
more particularly described as follows:
Beginning at a point on the South line
of Lot 5 of said "Bartholomew Estate
Subdivision" said point being distant
South 61 degrees 32 minutes 36 seconds
West as measured along the North line
of a Public Alley (20 feet wide), said
line being also the South line of Lots
3, 4, and part of Lot 5, a measured distance
of 53.52 feet (described 63.30 feet), from
the Southeast corner of said Lot 3, proceed-
ing thence from said point of beginning
South 61 degrees 32 minutes 36 seconds West
along the North line of said Public Alley,
said line being also the South line of part
of Lots 5 and 6 of said subdivision, a dis-
tance of 53.97 feet to a point; Thence North
28 degrees 27 minutes 24 seconds West into
the interior of Lot 6, a measured distance
of 38.23 feet (described 38.03 feet) to a
point; Thence North 61 degrees 32 minutes
36 seconds East through the interior of
part of Lots 6 and 5, a distance of
53.97 feet to a point; Thence South 28
degrees 27 minutes 24 seconds East, a

THIS INDENTURE, Made the 19th day of *August*,
in the year of our Lord one thousand nine hundred and sixty-six
between THE MICHIGAN CENTRAL RAILROAD COMPANY, a Michigan Corpora-
tion, whose address is 15th Street Terminal, Detroit, Michigan,
THE NEW YORK CENTRAL RAILROAD COMPANY, a Delaware Corporation,
whose address is 15th Street Terminal, Detroit, Michigan, and
THE DETROIT BANK AND TRUST COMPANY, a Michigan Banking Corpora-
tion, whose address is 201 West Fort Street, Detroit, Michigan,
GRANTORS, and GENERAL MOTORS CORPORATION, a Delaware Corporation,
whose address is 3044 West Grand Boulevard, Detroit, Michigan
48202, GRANTEE,

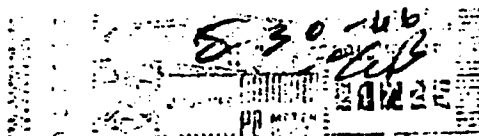

RECORDED AUG 30 1966 AT 248
BERNARD J. YOUNGBLOOD, Register of Deeds

W I T N E S S E T WAYNE COUNTY 26. MICHIGAN

That the said Grantors, for and in consideration of the
sum of ONE HUNDRED NINETY-SEVEN THOUSAND FOUR HUNDRED DOLLARS AND
FORTY-FIVE CENTS (\$197,400.45) to them in hand paid by the said
Grantee, the receipt whereof is hereby confessed and acknowledged,
do, by these presents, grant, bargain, sell, remise, release, and
forever QUITCLAIM unto the said Grantee, and to its successors
and assigns, FOREVER, all that certain piece or parcel of land,
situated in the City of Detroit, County of Wayne, and State of
Michigan, known and described as follows:

That part of Private Claims 47 and 583
lying West of Clark Avenue, North of
Plumer Avenue, South of part of the New
York Central Railroad right of way, East

628764

4.1 #217.25

of the East line of McKinstry Avenue,
East of a line which is distant 15.00
feet Easterly from and as measured at
right angles to that part of the West-
erly line of Private Claim 47 which lies
between the Southerly line of the New
York Central Railroad right of way and
the Northerly line of "Wm. Tait's Sub-
division." (Liber 16, Page 68 of Plats,
Wayne County Records) extended Easterly,
City of Detroit, Wayne County, Michigan,
and being more particularly described as
follows:

L16086 PA868

Commencing at a point in the Westerly
line of Private Claim 47, said point
being the Northeasterly corner of "Wm.
Tait's Subdivision of Outlot 42, Private
Claim 30, Detroit, Wayne County, Michigan."
(Liber 16, Page 68 of Plats, Wayne County
Records); Thence North 61 degrees 20 min-
utes East along the Northerly line of said
Wm. Tait's Subdivision extended Easterly,
a distance of 15.00 feet to the point of
beginning of the parcel of land herein to
be described; Running Thence from said
point of beginning North 28 degrees 00 minutes
West along a line which is parallel to and
distant 15.00 feet Easterly from the Westerly
line of said Private Claim 47, as measured
at right angles thereto, a distance of 288.86
feet to a point; Thence North 71 degrees 42
minutes 30 seconds East along the Southerly
line of the New York Central Railroad right
of way a distance of 101.97 feet to a point;
Thence North 74 degrees 54 minutes East along
said right of way line a distance of 297.54
feet to a point; Thence North 10 degrees 55
minutes 57 seconds West along said right of
way line a distance of 18.30 feet to a point;
Thence North 79 degrees 04 minutes 03 seconds
East along a line which is parallel to and
distant 5.60 feet Southerly from the South-
erly line of the New York Central Railroad
right of way, as measured at right angles
thereto, a distance of 66.29 feet to the
intersection of said line with the West-
erly line of Clark Avenue (69 feet wide);

628764

-2-

L16086 PA869

Thence South 28 degrees 00 minutes East along the Westerly line of said Clark Avenue a distance of 405.29 feet to the Northwest-erly corner of said Clark Avenue and Plumer Avenue (60 feet wide); Thence South 61 de-grees 34 minutes 23 seconds West along the Northerly line of said Plumer Avenue a distance of 444.28 feet to a point in the Easterly line of McKinstry Avenue (60 feet wide); Thence North 28 degrees 00 minutes West along said line a distance of 205.51 feet to an intersection with the Northerly line of said Wm. Tait's Subdivision extend-ed Easterly; Thence South 61 degrees 20 min-utes West along said line a distance of 15.00 feet to the point of beginning. Containing 202,462 square feet of land in area.

INCLUDING all strips and gores of land within the land described and claimed by Grantors, TOGETHER WITH all right, title and interest in McKinstry Avenue, Plumer Avenue, Clark Avenue, and Merritt Avenue. SUBJECT TO the right of public use in McKinstry Avenue, Plumer Avenue, Clark Avenue, and Merritt Avenue.

TOGETHER with all and singular the hereditaments and appurtenances thereunto belonging or in anywise appertaining: TO HAVE AND TO HOLD the said premises to the said Grantee, and to its successors and assigns, to the sole and only proper use, benefit and behoof of the said Grantee, its successors and assigns, Forever.

RESERVING, however, unto THE NEW YORK CENTRAL RAILROAD COMPANY, its successors and assigns:

An Easement for the maintenance, repair, use, and operation of an existing rail-road spur track located on a part of the

628764

LI16086 PA870

property conveyed hereunder, such
Easement to include only the following
described property:

Part of Private Claims 47 and 583, City
of Detroit, Wayne County, Michigan, be-
ing more particularly described as follows:
Commencing at a point in the Westerly line
of Private Claim 47, said point being the
Northeasterly corner of "Wm. Tait's Sub-
division of Outlot 42, Private Claim 30,
Detroit, Wayne County, Michigan." (Liber
16, Page 68 Plats, Wayne County Records);
Thence North 61 degrees 20 minutes East
along the Northerly line of said subdivi-
sion extended Easterly, a distance of 15.00
feet to a point; Thence North 28 degrees 00
minutes West along a line which is parallel
to and distant 15.00 feet Easterly from the
line common to Private Claims 47 and 30, as
measured at right angles thereto, a distance
of 249.85 feet to a point in the Southerly
line of a railroad spur track easement
(20 feet wide at this point) and the
point of beginning of the parcel of land
herein to be described; Running Thence
from said point of beginning North 28
degrees 00 minutes West parallel to the
Westerly line of Private Claim 47 a dis-
tance of 22.05 feet to a point in the
Northerly line of said easement; Thence
along the Northerly line of said Easement
by the following courses and distances:
along the arc of a curve, concave to the
Southwest, radius 566.66 feet, a distance
of 188.84 feet (chord South 83 degrees 59
minutes 08 seconds East 187.96 feet) to a
point; Thence along the arc of a curve,
concave to the Southwest, radius 1616.09
feet, a distance of 150.35 feet (chord
South 71 degrees 46 minutes 25 seconds
East 150.30 feet) to a point; Thence
South 69 degrees 06 minutes 30 seconds
East a distance of 225.00 feet to the
Easterly end of that part of said ease-
ment having a width of 20.00 feet; Thence
South 73 degrees 42 minutes 30 seconds
East a distance of 72.00 feet to a point;

45
L
More

628764

-4-

L116086 PA871

Thence South 28 degrees 00 minutes East along the Westerly line of Clark Avenue (69 feet wide) a distance of 39.21 feet to a point; Thence by the following courses and distances along the Southerly line of said Easement, distant 10.00 feet Southerly of and parallel to or concentric with the center line of the existing spur track (McClure Lead): North 69 degrees 06 minutes 30 seconds West a distance of 326.32 feet to a point; Thence along the arc of a curve, concave to the Southwest, radius 1596.09 feet, a distance of 148.49 feet (chord North 71 degrees 46 minutes 25 seconds West 148.44 feet) to a point; Thence along the arc of a curve, concave to the Southwest, radius 546.66 feet, a distance of 173.04 feet (chord North 83 degrees 30 minutes 25 seconds West 172.32 feet) to the point of beginning. Containing 13,132 square feet of land in area or 0.3015 acre;

Said Easement being reserved upon the following conditions:

- (1) The Grantee, its successors and assigns and all other persons hereinafter owning or occupying the whole or any part of the land herein conveyed shall have the right to the full use and enjoyment of the premises covered by said Easement except only as to the rights herein reserved;
- (2) Said Easement shall remain in effect for only so long as the existing railroad spur track is located and used on said property and in the event the said railroad spur track is ever discontinued or abandoned or in the event the said railroad spur track is ever removed, then the Easement herein reserved

628764

L16086 PA872

shall, without notice, demand, or re-entry, automatically revert to the Grantee, its successors and/or assigns and The New York Central Railroad Company agrees to forthwith deliver a Deed of Release to Grantee releasing all of its rights in said Easement.

IN WITNESS WHEREOF, the said GRANTORS have caused these presents to be signed in their respective names by their properly authorized officers and sealed with their respective corporate seals the day and year first above written.

Quitclaim Deed -- Michigan

G318812

THIS DEED made this *1st* day of *October*, in *LI20298PA 90*
the year One thousand nine hundred and seventy-six (1976),
BETWEEN CONSOLIDATED MAIL CORPORATION, a Corporation organized and existing under
the laws of the Commonwealth of Pennsylvania, having an office at Six Penn Center Plaza,
Philadelphia, Pennsylvania, 19104,

hereinafter referred to as the Grantor, and GENERAL MOTORS CORPORATION, a Corporation of
the State of Delaware, having a Post Office address of 3044 W. Grand Boulevard, Detroit,
Michigan, 48202,

RECORDED OCT 20 1978
FOREST E. YOUNGBLOOD, Register of Deeds
WAYNE COUNTY, MICHIGAN 48226

G348812

hereinafter referred to as the Grantee;

WITNESSETH: That the said Grantor, for and in consideration of the
sum of \$633.00
to it paid by said Grantee, the receipt whereof is hereby confessed and acknowledged,
does by these presents, remise, release and (quitclaim) unto the said Grantee, the
heirs or successors and assigns of the said Grantor, all its right, title and interest
of, in and to the premises described in Schedule "A" attached hereto and made a
part hereof.

859473

US & More

SCHEDULE "A"

L120298PA 91

ALL THAT parcel of land being that part of the West half of the East half of vacated McKinstry Avenue (60 feet wide) which lies Northerly of the Southerly line extended Easterly, of that part of the Consolidated Rail Corporation right of way (Michigan Central Railroad) 200 feet wide, which lies West of the Westerly line of Private Claim 47, said parcel being part of Private Claim 47, City of Detroit, Wayne County, Michigan and being more particularly described as follows: Commencing at the Southwest corner of Merritt Avenue (50 feet wide) and McKinstry Avenue (60 feet wide), said point being the Northeast corner of Lot 1 of "Wm. Tait's Sub'n. of Out Lot 42, P.C. 30, Detroit, Wayne County, Michigan". (L. 16, P. 68 Plats, W.C.R.); running thence North 28 degrees 00 minutes 00 seconds West along the extension Northerly of the Westerly line of McKinstry Avenue 29.96 feet to a point; thence North 61 degrees 20 minutes 00 seconds East along the Southerly line of Out Lot 43 of the "Plat of Private Claim 30" (L. 1, P. 67 Plats, W.C.R.) 30.00 feet to the Northeast corner of said "Wm. Tait's Sub'n."; thence North 28 degrees 00 minutes 00 seconds West along the Westerly line of Private Claim 47, said line being also the centerline of vacated McKinstry Avenue, so called, a distance of 250.30 feet to a point of intersection with the Southerly line of that part of Consolidated Rail Corporation's right of way (W.C.R.) 200 feet wide, which lies West of the West line of Private Claim 47, said intersection being the point of beginning of the parcel of land to be described herein; running thence from said point of beginning North 28 degrees 00 minutes 00 seconds West along the Westerly line of said Private Claim 47, said line being also the centerline of vacated McKinstry Avenue, a distance of 41.01 feet to a point; thence North 70 degrees 03 minutes 00 seconds East a distance of 9.60 feet to a point; thence North 71 degrees 42 minutes 30 seconds East 5.57 feet to a point; thence South 28 degrees 00 minutes 00 seconds East along the Easterly line of the Westerly half of the Easterly half of said vacated McKinstry Avenue, parallel to and distant 15.00 feet Easterly from the Westerly line of Private Claim 47, as measured at right angles thereto, a distance of 43.34 feet to a point; thence South 79 degrees 04 minutes 03 seconds West along the extension Easterly of the Southerly line of that part of Consolidated Rail Corporation's right of way, 200 feet wide, as it exists West of the Westerly line of Private Claim 47, a distance of 15.69 feet to the point of beginning.

CONTAINING 633.12 square feet or 0.0145 acre of land in area.

RESERVING, however, unto the said Grantor, its successors and assigns, a permanent easement, 20 feet wide, for the "McClum Lead", over and across a portion of the parcel of land hereinbefore described, being 10 feet on each side of the center line of Grantor's existing sidetrack, for the continued maintenance, repair, renewal, operation and use of the existing railroad tracks and appurtenant devices and facilities in connection with the same and with the free and uninterrupted right, liberty and privilege of passing at all times hereafter over and upon the same with or without locomotives, freight or other cars, said portion of said parcel of land being more particularly described as follows, viz:

BEGINNING at a point in the westerly line of Private Claim 47, formerly the centerline of McKinstry Avenue, so called, distant North 28 degrees 00 minutes West 256.87 feet as measured along said line from the Northeast corner of "Wm. Tait's Sub'n. of Out Lot 42 of P.C. 30." (L. 16, P. 68 Plats, W.C.R.); running thence from said point of beginning North 28 degrees 00 minutes West along the Westerly line of Private Claim 47 a distance of 21.77 feet to a point; thence Easterly along the arc of a curve which is concave to the south, radius 566.66 feet, an arc distance of 16.37 feet (chord bears North 85 degrees 32 minutes 36 seconds East 16.37 feet) to a point in the Easterly line of the Westerly half of the Easterly half of said vacated McKinstry Avenue; thence South 28 degrees 00 minutes East along said line 22.05 feet to a point; thence Westerly along the arc of a curve which is concave to the South, radius 566.66 feet, said curve being concentric with and 20 feet Southerly from the Northerly line of the easement described herein, as measured radially thereto, an arc distance of 16.49 feet (chord bears South 86 degrees 26 minutes 09 seconds West 16.49 feet) to the point of beginning. Containing 328.6 square feet in area;

859473

SCHEDULE "A" (continued)

it being expressly understood and agreed by and between the parties hereto:

1. That Grantee, its successors and assigns and all other persons herein-
after owning or occupying the whole or any part of the land hereby
conveyed shall have the right to the full use and enjoyment of the
premises covered by said easement, PROVIDED that such use and enjoyment
do not in any way interfere with the rights herein reserved; and
2. That said easement shall remain in effect for only so long as the existing
railroad sidetrack is located and used on the parcel of land hereby con-
veyed and in the event the said railroad sidetrack is ever discontinued or
abandoned or in the event the said railroad sidetrack is ever removed,
then the easement herein reserved shall immediately cease and terminate
with the same force and effect as if these presents had never been made.

SUBJECT, however, to (1) easements of record or otherwise affecting the parcel
of land hereby conveyed; and (2) the state of facts disclosed by Survey made by David
C. Adams and Son, Registered Land Surveyors, Detroit, Michigan, dated June 30, 1975.

THIS INSTRUMENT is executed, delivered and accepted upon the understanding and agreement:

LI20298PA 93

(a) that the said Grantor shall not be liable or obligated to construct or maintain any fence between the land hereinbefore described and land of the said Grantor adjoining the same; or be liable or obligated to pay for any part of the cost or expense of constructing or maintaining such a fence or any part thereof; or be liable for any compensation for any damage that may result by reason of the non-existence of such a fence;

(b) that the said Grantee shall not have or assert to have any claim or demand whatsoever for compensation for damages, whether said damages be direct or consequential, to the land hereinbefore described or to any buildings or improvements now or hereafter erected thereon, or to the contents thereof, which may be caused by the operation, maintenance, repair or renewal of Grantor's railroad or which may be caused by vibration resulting from the operation, maintenance, repair or renewal thereof; and the said Grantee hereby expressly releases the said Grantor from liability for any such damages;

~~that the said Grantee shall not at any time hereafter ask, demand, recover or receive any compensation whatever for any damage which may be caused by the sliding of any part of the adjoining railroad embankment of the said Grantor, or by the draining or seeping of water therefrom upon or into the land hereinbefore described or upon or into anything which may be erected or placed thereon;~~

that the said Grantor shall not be liable or obligated to provide lateral support for the surface of the land hereinbefore described or any part thereof; and that the said Grantee shall not, at any time hereafter, ask, demand, recover or receive any compensation whatever for any damage that may be caused by the sliding of any part of the slope or embankment supporting the surface of the land hereinbefore described on the ~~and shall use due diligence to prevent the drainage or seepage of water or the precipitation of snow or ice or anything whatever from the land hereinbefore described onto or upon the remaining land of the said Grantor or onto or upon any part thereof;~~

that in the event the tracks of the railroad of the Grantor are elevated or depressed, or the grades of any streets, avenues, roads, lanes, highways or alleys over the said railroad in the vicinity of the land hereinbefore described are changed so that they shall pass over and or underneath the said tracks and railroad, or in the event any grade crossing is vacated and closed, the said Grantee, as owner of the land hereinbefore described, shall not ask, demand, recover or receive any compensation whatsoever for any damage of whatsoever nature caused by or in any manner growing out of the separation or change of grades of said railroad and/or said streets, avenues, roads, lanes, highways or alleys or out of the vacation and closing of any grade crossing.

(c) that a right or means of ingress, egress or passageway to or from the land hereinbefore described is not hereby granted, specifically or by implication, and that the said Grantor shall not and will not be liable or obliged to obtain for the said Grantee such means of ingress, egress or passageway and also that the said Grantee will obtain a means of access to and from the said land at his or its own cost and expense.

(d) that should a claim adverse to the title hereby quitclaimed be asserted and/or proved no recourse shall be had against the said Grantor herein.

859473

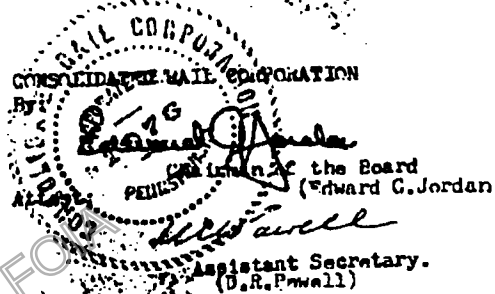

THE words "Grantor" and "Grantee" used herein shall be construed as if they read "Grantors" and "Grantees", respectively, whenever the sense of this Instrument so requires and whether singular or plural, such words shall be deemed to include in all cases the successors and assigns of the respective parties.

L/20298PA 94

IN WITNESS WHEREOF the said Grantor has caused this Deed to be executed by **E. G. JORDAN** its Chairman of the Board and attested by **D. R. POWELL** its Assistant Secretary, the day and year first above written.

WITNESSES:

Benjamin Hardor
(Benjamin Hardor)
Harriet H. Penney
(Harriet H. Penney)

COMMONWEALTH OF PENNSYLVANIA)
COUNTY OF PHILADELPHIA)

ON THIS 1st day of October, 1976, before me, a Notary Public in and for said Commonwealth and County, appeared Edward G. Jordan to me personally known, who, being by me duly sworn, did say that he is the Chairman of the Board of CONSOLIDATED RAIL CORPORATION and that the seal affixed to said Instrument is the corporate seal of said Corporation, and that said Instrument was signed and sealed in behalf of said Corporation by authority of its Board of Directors, and said Edward G. Jordan acknowledged said Instrument to be the free act and deed of said Corporation.

Joseph J. Trout
Notary Public.
