### DECLARATION OF RESTRICTIVE COVENANT

This Declaration of Restrictive Covenant ("Restrictive Covenant") is made by General Motors Corporation ("GM"), with an address of 300 Renaissance Center, Detroit, Michigan 48265, and is recorded with the Oakland County Register of Deeds for the purpose of protecting public health, safety, and welfare, and the environment by prohibiting or restricting activities that could result in unacceptable exposure to environmental contamination present at the property located within the area of 2100 South Opdyke Road in Pontiac, Michigan. The legal descriptions and surveys of the portion of the property that is subject to the land use and resource use restrictions specified in this Restrictive Covenant (the "Property") are attached hereto as Exhibit 1. The general location of the portion of the property subject to the land use and resource use restrictions is attached hereto as Exhibit 2.

The Property is associated with the GM Pontiac Centerpoint Campus, legally described in Exhibit 3, and has United States Environmental Protection Agency ("USEPA") Identification Number MID005356902 and is the subject of corrective action pursuant to the Resource Conservation and Recovery Act ("RCRA"), 42 USC § 6901 *et seq.* This corrective action will be the subject of an Administrative Order on Consent to be entered into between GM and the USEPA. The Administrative Order on Consent will require GM to reserve the right to enforce the restriction and covenants set forth in this Restrictive Covenant in any document conveying an interest in the Property.

On April 28, 2006, GM submitted to the USEPA a Corrective Measures Proposal (CMP) that proposed final Corrective Measures at the Property. The CMP described and documented the investigations, corrective action activities and proposed controls for contamination remaining at the Property. USEPA reviewed GM's CMP, inspected the Property, and issued a Final Decision on August 3, 2006 approving the corrective action at the Property including implementation of an enforceable mechanism to ensure that the controls proposed by GM are implemented and remain in place. This Restrictive Covenant and the Administrative Order on Consent are collectively intended to be such a mechanism.

The CMP provides that this Restrictive Covenant will be recorded with the Oakland County Register of Deeds to: (1) prohibit use of shallow groundwater for potable use on areas of the Property shown on Exhibit 1; and (2) restrict the uses of the Property shown on Exhibit 1 for any purpose other than those characterized by the Michigan Department of Environmental

Quality ("MDEQ") as Limited Commercial II, Limited Commercial III, Limited Commercial IV and Limited Industrial ("Commercial/Industrial"), unless otherwise agreed to by GM and USEPA and in consultation with MDEQ; and (3) restrict a portion of the burn pile to prevent exposure to workers not wearing required Personal Protective Equipment (PPE) and prevent the construction of a building as shown on Exhibit 1.

The land and resource use restrictions contained in this Restrictive Covenant are based upon information available at the time the CMP was approved by the USEPA. Failure of the corrective action activities to achieve and maintain the exposure controls and requirements specified in the CMP; future changes in the environmental condition of the Property; the discovery of environmental conditions at the Property that were not accounted for in the CMP; or use of the Property in a manner inconsistent with the restrictions described herein, may result in conditions at the Property not being protective of public health, safety, and welfare, and the environment.

GM intends to reserve in any future conveyance by GM of an interest in all or part of the Property the right to enforce the restrictions and covenants in this Restrictive Covenant for: (1) GM; (2) USEPA and its authorized representatives, as third party beneficiary; and (3) MDEQ and its authorized representatives.

#### Summary of Corrective Action Activities

Hazardous substances have been detected at the Property at concentrations above generic residential cleanup criteria promulgated under Part 201, Environmental Remediation, of the Michigan Natural Resources and Environmental Protection Act ("NREPA"), MCL § 324.20101 *et seq.*, as amended. Corrective action has been undertaken to reduce this contamination to below applicable Commercial/ Industrial criteria.

Areas of the Property described in Exhibit 1 may contain hazardous substances in excess of the concentrations developed as the unrestricted residential generic cleanup criteria under Section 20120a(1)(a) or (17) of the NREPA that have not been addressed by the activities undertaken to date. Prospective purchasers or users of the Property should undertake appropriate due diligence prior to acquiring or using this Property, and undertake appropriate actions to comply with the requirements of Section 20107a of the NREPA and the Final Decision issued by USEPA.

#### Definitions

"MDEQ" means the Michigan Department of Environmental Quality, its successor entities, and those persons or entities authorized to act on its behalf.

"Owner" means at any given time the then current title holder of the Property or any portion thereof, including the title holder's lessees and those persons or entities authorized to act on its behalf.

"USEPA" means the United States Environmental Protection Agency, its successor entities, and those persons or entities authorized to act on its behalf.

All other terms used in this document which are defined in RCRA and/or Part 3, Definitions, of the NREPA; Part 201 of the NREPA; or the Part 201 Administrative Rules ("Part 201 Rules"),

March 30, 2007

1990 AACS R 299.5101 *et seq.*, shall have the same meaning in this document as in RCRA and Parts 3 and 201 of the NREPA and the Part 201 Rules, as of the date of filing of this Restrictive Covenant.

**NOW THEREFORE,**

Declaration of Land Use and Resource Use Restrictions

GM, on behalf of itself, its successors, transferees and assigns, covenants and declares that the Property shall be subject to those restrictions on use described below and intends that said restrictions and covenants shall run with the land, and may be enforced in perpetuity against the Owner by the following entities: (1) GM, if it is no longer the Owner; (2) MDEQ and its assigns, pursuant to Part 201 of the NREPA; and (3) USEPA and its assigns, as third party beneficiary.

1. The Owner shall prohibit all uses of the Property described in Exhibit 1 that are not compatible with the Limited Commercial II, Limited Commercial III, Limited Commercial IV, or Limited Industrial land use categories established by MDEQ under Sections 20120a(1)(g) and (i) of the NREPA, and generally described in the *Description of Allowable Uses*, attached hereto as Exhibit 4, unless otherwise agreed to by GM and USEPA and in consultation with MDEQ.
2. The Owner shall manage all soils, media and/or debris that are excavated or disturbed on the Property in accordance with the applicable requirements of Section 20120c of the NREPA; Part 111, Hazardous Waste Management, of the NREPA; Subtitle C of RCRA; the administrative rules promulgated thereunder; and all other applicable state and federal laws.
3. The Owner shall prohibit any construction of wells or other devices to extract shallow groundwater for potable use from the Property described in Exhibit 1.
4. The Owner shall prohibit any excavation or other intrusive activity at the burn pile as presented in Exhibit 1 that could result in the exposure to workers not wearing required PPE and the owner shall prohibit the construction of a building.
5. The Owner shall not in any way interfere with the operation of the Building 33 LNAPL and groundwater collection and treatment system.
6. The owner shall not remove, disturb or damage any monitoring wells on the Property except as provided in the Long-Term Monitoring (LM) Plan without USEPA approval.
7. The Owner shall not remove, cover, obscure, or otherwise alter or interfere with the permanent marker placed at the burn pile noted in the Permanent Marker Plan, Exhibit 5. The Owner shall keep vegetation and other materials clear of the permanent markers to ensure that the markers are readily visible.
8. The Owner shall provide notice to the USEPA Region 5 and the MDEQ of the Owner's intent to transfer any interest in the Property at least twenty-one (21) days prior to consummating the conveyance. A conveyance of title, easement, or other interest in the Property shall not be consummated by the Owner without adequate and complete provision for

compliance with the terms and conditions of this Restrictive Covenant MDEQ Reference Number RC-WHMD-111-07-003. The notice required to be made to the MDEQ under this Paragraph shall be made to: Director, MDEQ, P.O. Box 30473, Lansing, Michigan 48909-7973; and shall include a statement that the notice is being made pursuant to the requirements of this Restrictive Covenant. The notice required to be made to the USEPA under this Paragraph shall be made to: Director, RCRA Corrective Action, United States Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, D-8J, Chicago, Illinois, 60604-3507. A copy of this Restrictive Covenant shall be provided to all future owners, heirs, successors, lessees, easement holders, assigns, and transferees by the person transferring the interest.

9. This Restrictive Covenant may only be modified or rescinded with the written approval of the USEPA and GM in consultation with MDEQ and the Owner shall cooperate in making any required modification.

10. The Owner shall provide written notice to GM, USEPA, and MDEQ within seven days of the time the Owner becomes aware of any activities that are inconsistent with the restrictions and covenants in this Restrictive Covenant.

11. GM on behalf of itself and its successors in title consents to the USEPA and the MDEQ and their designated representatives having the right to enter the Property at reasonable times for the purpose of determining and monitoring compliance with the Consent Order, including the right to take samples, inspect the operation of the response activities and, inspect any records relating thereto, and to perform any actions necessary to maintain compliance with the Consent Order.

12. GM intends that any and all owners, operators, and tenants shall not "treat", "store", or "dispose" of any "hazardous substances", hazardous wastes", or "toxic substances" as those terms are defined under CERCLA, 42 U.S.C. 9601 et. seq., RCRA, 42 U.S.C. 6901 et. seq., or TSCA, 15 U.S.C. 9601 et. seq., or under similar applicable state law, on, at, or below the Property, and shall maintain generator-only status or no generator of hazardous waste status; provided, however, that it shall be permitted to (i) accumulate such substances or wastes, generated at the site, and as allowed under applicable laws and regulations for off-site treatment, off-site storage, or off-site disposal, and (ii) use and store commercial products on-site which may contain such substances in accordance with applicable laws and regulations.

13. GM is entitled to enforce the restrictions and covenants in this Restrictive Covenant by specific performance or other legal action in a court of competent jurisdiction against subsequent Owners of all or part of the Property. GM, on behalf of itself and its successors in title, intends and agrees that MDEQ, pursuant to Part 201 of NREPA, and the USEPA, as a third party beneficiary, are entitled to enforce the restrictions and covenants in this Restrictive Covenant by specific performance or other legal action in a court of competent jurisdiction against GM, as Owner, and thereafter against subsequent Owners of all or a part of the Property. All remedies available hereunder shall be in addition to any and all other remedies at law or equity.

14. If any provision of this Restrictive Covenant is held to be invalid by any court of competent jurisdiction, the invalidity of such provision shall not affect the validity of any other provisions hereof, and all such other provisions shall continue unimpaired and in full force and effect.

March 30, 2007

15. GM hereby reserves unto itself, its representatives, contractors, and assigns, the right of access to, and an easement to and over, the Property to enter the Property with persons and such equipment as determined necessary in GM's sole discretion and judgment to implement any remediation and corrective actions required under the environmental laws. Notwithstanding the foregoing, prior to entering onto the Property pursuant to this provision, GM shall provide subsequent Owners of all or part of the Property reasonable notice. Subsequent Owners of all or part of the Property shall be entitled to escort GM, or its agent, employees or contractors onto the Property and observe all of GM's activities, and GM shall comply with all applicable laws and regulations in connection with GM's access to the Property.

**DESCRIPTION OF ALLOWABLE USES**

## **Commercial Subcategory II Land Use Category**

Any uses allowed under the Commercial Subcategory II Land Use Category, described as follows in RRD Operational Memorandum No. 1, December 10, 2004:

Commercial Subcategory II: The degree of exposure for such employees under subcategory II property is assumed to be equivalent to the exposures used to model outdoor activities in the development of the generic industrial criteria. As a result, a unique set of generic criteria has not been defined for this subcategory of commercial land use. Properties that fall into this subcategory should be addressed through the application of the generic industrial criteria or through a site-specific risk assessment.

This commercial land use subcategory is characterized by the following features. Access to the public is reliably restricted, consistent with its use by fences, security, or both. Affected surficial soils are located in unpaved or landscaped areas that are frequently contacted by worker populations such as groundskeepers, maintenance workers, or other employees whose primary duties are performed outdoors. If groundwater is relied on for drinking water, it is assumed that worker populations receive one-half of their total daily drinking water exposure from the facility. This subcategory could include, but is not limited to, the following uses:

- a) large scale commercial warehouse operations;
- b) wholesale lumber yards;
- c) building supply warehouses.

## **Commercial Subcategory III Land Use Category**

Any uses allowed under the Commercial Subcategory III Land Use Category, described as follows in MDEQ Remediation and Redevelopment Division Operational Memorandum No. 1, December 10, 2004:

Commercial Subcategory III (low soil intensive): A worker whose primary duties take place indoors but also include some outdoor activities such as collecting trash is the receptor for this subcategory. A subcategory III commercial property is characterized by the following features. Access to the public is unrestricted, however, the general public's occupancy of the property is expected to be intermittent and significantly less in frequency and duration relative to the population working at the facility. Although some of the activities for both worker populations and the general public at a subcategory III commercial property are conducted indoors, a significant component of their activity will likely be outdoors. The worker/receptor population at these commercial facilities is expected to engage in low soil intensive activities. Routine outdoor tasks performed by these workers are unlikely to result in significant physical interaction with the soil. Affected surficial soils may be contacted, primarily by the worker populations (as may be the cases at gas stations, auto dealerships, or building supply warehouses with unpaved areas). If on-site groundwater is relied on for drinking water, it is assumed that worker populations receive one-half of their total daily drinking water exposure from the facility. The receptors for this subcategory are expected to work at the kinds of establishments that are listed below and

conducting activities that take place both indoors and outdoors. This subcategory could include, but is not limited to, the following uses:

- a) retail gas stations;
- b) auto service stations;
- c) auto dealerships;
- d) retail warehouses selling the majority of their merchandise indoors but including some limited storage or stockpiling of materials in an outdoor yard (building supply, retail flower, and garden shops not involving on-site plant horticulture and excluding open air nurseries, tree farms, and sod farms which would fall into an agricultural land use);
- e) repair and service establishments including but not limited to, lawn mower, boat, snowmobile, or small appliance repair shops that have small outdoor yards;
- f) small warehouse operations.

#### **Commercial Subcategory IV Land Use Category**

Any uses allowed under the Commercial Subcategory IV Land Use Category, described as follows in MDEQ Remediation and Redevelopment Division Operational Memorandum No. 1, December 10, 2004:

Commercial Subcategory IV (high soil intensive): A groundskeeper worker population has been identified as the appropriate receptor population for development in this subcategory. The worker/receptor population at these commercial facilities is expected to engage in high soil intensive activities. The primary tasks performed by these workers will result in significant physical interaction with the soil. A subcategory IV commercial property is characterized by the following features. Access to the public is unrestricted, however, the general public's occupancy of the facility is intermittent in frequency and of short duration relative to the worker populations at the facility (i.e., the frequency and duration of general public occupancy at the property is typified by the time necessary to transact business at a retail establishment or to receive personal services). At least a portion of the worker population at this type of commercial property conducts most of their work activities outdoors; this includes those workers from off-site who work at multiple properties such as commercial landscapers. General public contact with these areas is anticipated to be significantly less than the worker's contact, both in terms of frequency and duration. If groundwater is relied upon for drinking water, worker populations would receive one-half of their total daily drinking water exposure at the facility. This subcategory could include, but is not limited to, the following uses where landscaping exists or has the potential to exist:

- a) professional offices (lawyers, architects, engineers, real estate, insurance, etc.);
- b) medical/dental offices and clinics (not including hospitals);
- c) banks, credit unions, savings and loan institutions, etc.;

- d) publicly owned office buildings;
- e) any retail business whose principal activity is the sale of food or merchandise within an enclosed building;
- f) personal service establishments which perform services indoors (health clubs, barber/beauty salons, mortuaries, photographic studios, etc.).

### **Industrial Land Use Category**

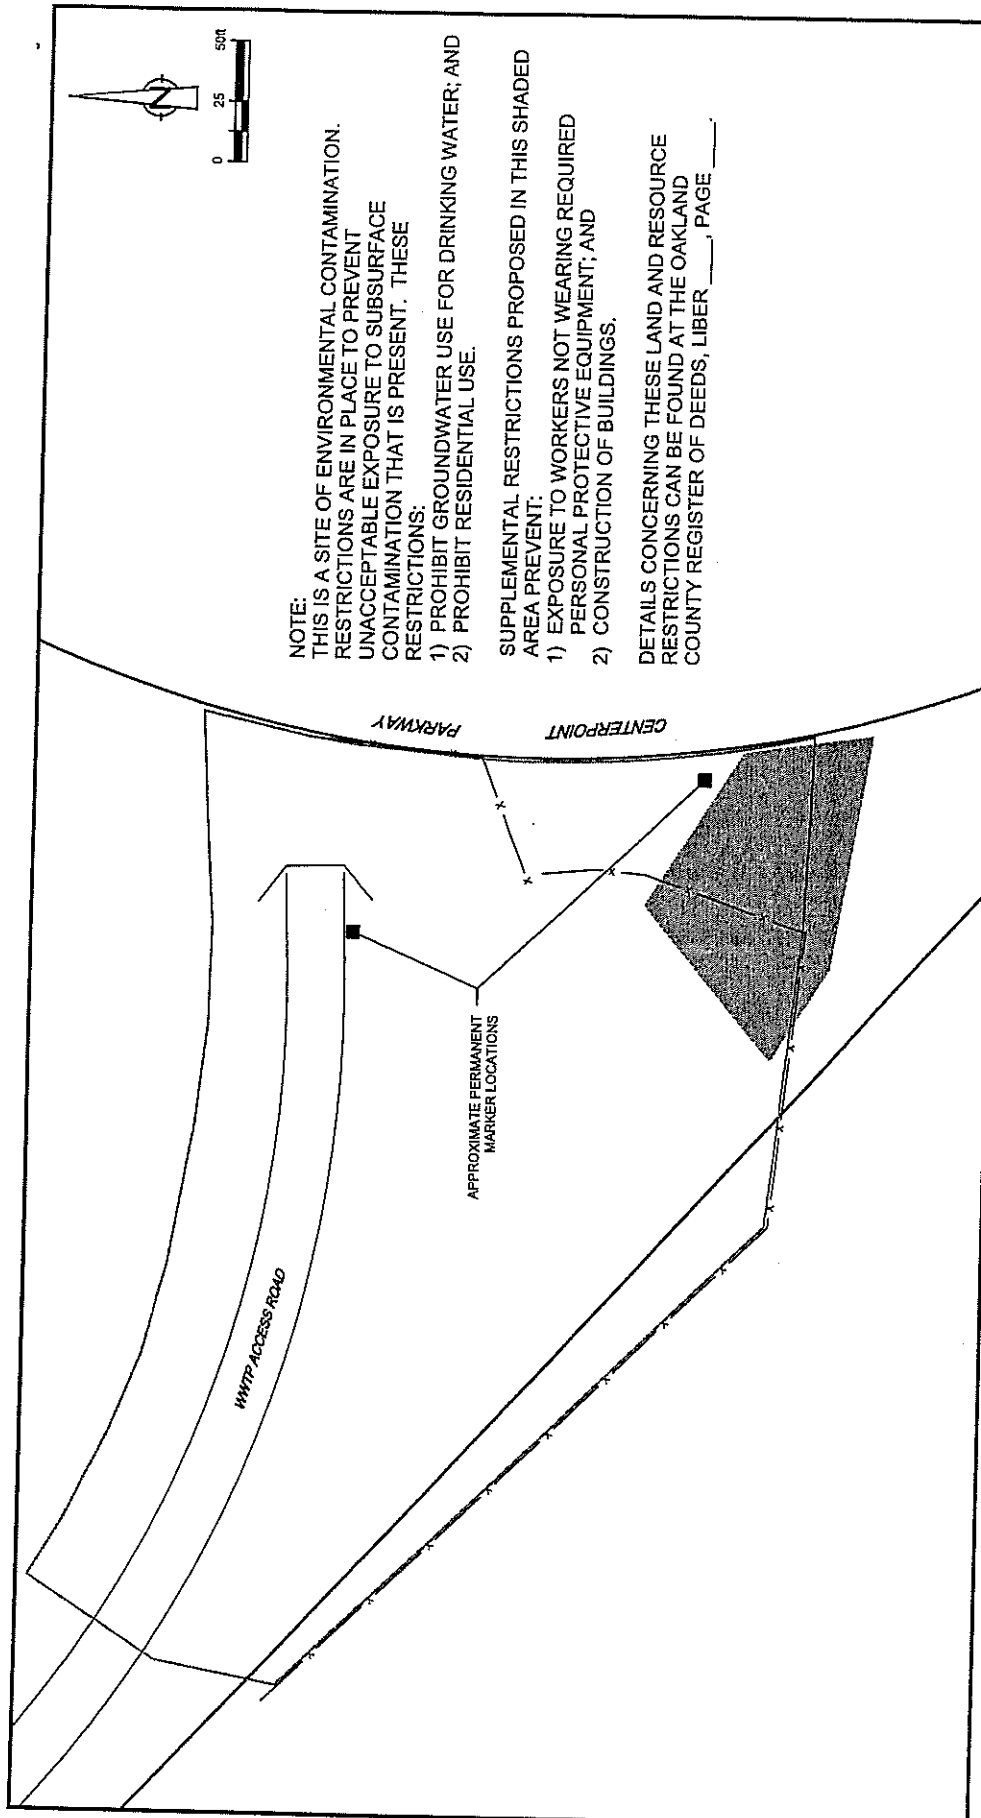

Any uses allowed under the Industrial Land Use Category, described as follows in MDEQ Remediation and Redevelopment Division Operational Memorandum No. 1, December 10, 2004:

Industrial Land Use Category: Industrial land use includes both of the following two elements:

1. The primary activity at the property is and will continue to be industrial in nature (e.g., manufacturing, utilities, industrial research and development, petroleum bulk storage) and access is and will continue to be reliably restricted consistent with its use (e.g., by fences, security personnel, or both). Inactive or abandoned properties can be included in this category if the use was and/or will be industrial, as described above, and access is controlled as necessary to assure unacceptable exposures do not occur. The industrial category does not include farms, gasoline service stations, or other commercial establishments where children may commonly be present.
2. The current zoning of the property is industrial, the zoning is anticipated to be industrial (see below), or the RAP/CAP includes documentation that the current industrial use is a legal nonconforming use. This may include different zoning designations, depending on the community, such as "light industrial" or "heavy industrial." Documentation of zoning must be included in the RAP/CAP and must include a map or current property record card that shows the zoning status of the facility and all adjacent properties. For each designated zoning category, the documentation must also include the text of the zoning code or ordinance for that designation. If the text for the zoning category refers to any other categories, text for those categories must also be included. If the RAP/CAP is based on anticipated zoning changes, documentation of how and when the zoning changes are to be accomplished and that the proposed criteria are consistent with the new zoning designation must be provided. The MDEQ shall not grant final approval until a final determination of that zoning change has been made by the local unit of government. The RAP/CAP must identify the nearest current residential land uses and nearest properties which are zoned for residential use. Any legal nonconforming land uses in the vicinity of the facility must be identified in the RAP/CAP (e.g., residential use on a parcel zoned "transitional industrial").
