

**Revitalizing Auto Communities
Environmental Response Trust**

September 16, 2014

Ms. Karen Williams
Michigan Department of Environmental Quality
Southeast Michigan District Office
Remediation and Redevelopment Division
Warren, MI 48092-2793

Re: Request for Certificate of Completion from DEQ
6241 Cass at Amsterdam Property
Detroit, Michigan, Wayne County
Site ID No.: 82002795

Dear Ms. Williams;

Please find attached for your review and action, a Request for Certificate of Completion from DEQ. The attached Implementation of Response Activity Plan for RACER Site #12940, 6241 Cass Avenue, Detroit, MI, Site Id No.: 82002795, Haley & Aldrich, July 21, 2014; and a recorded Declaration of Restrictive Covenant (DRC), that was reviewed and approved by DEQ prior to it being recorded, are provided in support of the Request for Certificate of Completion from DEQ.

Please let me know if you have any questions or comments, or would like to discuss this matter.

Sincerely,

David Favero
Deputy Cleanup Manager - Michigan

Request for Certificate of Completion from DEQ

Request for Certificate of Completion from DEQ

This form is required for submittal of a request for the DEQ to issue a Certificate of Completion of a response activity under Section 20114f, Part 201, Environmental Remediation, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended.

Section A - Type of Response Activity Completed:

Remedial Investigation (RI)	☐	Remedial Action	☒
Evaluation other than RI	☐	Interim Response	☐
Feasibility Study	☐	Other, Specify:	☐

Section B - Prior DEQ Approval of the Response Activity:

Did the response activity completed receive prior approval from the DEQ pursuant to Section 14b of Part 201?

No ☐

Yes ☒ If the answer is "yes", provide the date and title of the response activity plan approved. 7 March 2014

Section C - Facility Information:

Facility Name: RACER Cass Avenue Site 12940	County: Wayne
Street Address of Property: 6241 Cass Avenue	City/Village/Township: Detroit
City: Detroit State: MI Zip: 48201	Town: Range: Section:
Property Tax ID (include all applicable IDs):	Quarter: Quarter-Quarter:
Status of submitter relative to the property (check all that apply):	Decimal Degrees Latitude: 42°21'59.35"
Former Current Prospective	Decimal Degrees Longitude: 83°04'22.98"
Owner ☐ ☒ ☐	Reference point for latitude and longitude:
Operator ☐ ☒ ☐	Center of site ☒ Main/front door ☐
	Front gate/main entrance ☐ Other ☐
	Collection method: Google Earth
	Survey ☐ GPS ☐ Interpolation ☒

Section D: Facility/Property Regulated by (Check all that apply):

Facility regulated under Part 201, other source, or source unknown	☒
Part 201 Site ID, if known: 82002795	
Leaking Underground Storage Tank regulated pursuant to Part 213	☐
Part 211/213. Facility ID, if known:	
Oil or gas production and development regulated pursuant to Part 615 or 625	☐
Licensed landfill regulated pursuant to Part 115	☐
Licensed hazardous waste treatment, storage, or disposal facility regulated pursuant to Part 111	☐
Consent Agreement or other legal agreement with the MDEQ	☒

Section E - Submitter Information:

Entity/person requesting the Certificate of Completion: Revitalizing Auto Communities Environmental Response Trust (RACER Trust)

Contact Person (name and title): David Favero, Deputy Cleanup Manager - Michigan

Submitter Address: 500 Woodward Avenue, Suite 1510

City: Detroit State: MI Zip: 48226

Telephone: 734.879.9525 E-Mail: dfavero@racetrust.org

Relationship of contact person to the submitter: Deputy Cleanup Manager - Michigan

Owner Name, if different from Submitter: Company:

Address: City: State: Zip:

Telephone: E-Mail:

Request for Certificate of Completion

Section F: Are/were the following present at the facility (Check all that apply):

	Current	Previous	Unknown
Free product/Non aqueous phase liquids (NAPL)	☐	☐	☐
Soil contamination above any residential criteria	☐	☒	☐
Soil contamination above any non-residential criteria	☐	☒	☐
Soil aesthetic impacts	☐	☐	☐
Groundwater contamination above any residential criteria	☐	☐	☐
Groundwater contamination above any non-residential criteria	☐	☐	☐
Groundwater contamination above the Acute Inhalation Screening Level	☐	☐	☐
Groundwater aesthetic impacts	☐	☐	☐
Soil Gas contamination above residential vapor intrusion (VI) screening levels	☐	☐	☐
Soil Gas contamination above non-residential screening levels	☐	☐	☐
Conditions immediately dangerous to life or health (IDLH)	☐	☐	☐
Fire & Explosion hazards related to releases	☐	☐	☐
Contamination existing in drinking water supply	☐	☐	☐
Imminent threat to drinking water supply	☐	☐	☐
Impact to surface water	☐	☐	☐
Impact to surface water sediments above screening levels	☐	☐	☐

Section G - The following questions assist MDEQ in evaluating the request for a Certificate of Completion:
(Please note this information is not required if the Certificate of Completion is being requested for a response activity previously approved by the MDEQ (see Section B) and the responses below have not changed since the prior submittal.)

Known or Suspected Contaminant(s) Type (Check all that apply):			
Petroleum	☒	Volatile Organic Compounds	☐
Metals	☒	Other	☐
Current Site Status (Check all that apply):			
Undergoing property transfer	☒	Active operations	☐
Inactive operation	☒		
Current Property Use:			
Residential/Institutional (including schools, nursing homes, hospitals, etc.)	☐		
Non-residential	☒		
Anticipated Property Use:			
Residential/Institutional (including schools, nursing homes, hospitals, etc.)	☐		
Non-residential	☒		
Estimated Area of Contamination Addressed in Response Action Plan (Cumulative):			
Currently undetermined	☐	< 0.5 acre	☐
> 0.5 acre	☒		
Migration:			
Has contamination migrated beyond the property boundaries?	Yes ☐	No ☒	Unknown ☐
Has the Notice of Migration been submitted?	☐	☒	☐
Facility Investigation Status:			
Ongoing	☐	Complete	☒
Facility Response Activity Status (Check all that apply):			
None	☐	IR Implemented	☐
Response Activity Ongoing	☐	Response Activity Completed	☒
Drinking Water Supply for Facility (Check all that apply):			
Municipal	☒	Private Well(s)	☐
No Current Water Supply	☐	Municipal Available	☐
On-site Well(s) (Check all that apply):			
Drinking Water	☐	Industrial/Commercial Production	☐
Agricultural/Irrigation	☐	No well on-site	☒
Approximate Depth of Well(s):			

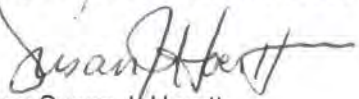

Request for Certificate of Completion

Local Drinking Water Supply:			
Is facility in a designated Wellhead Protection Area?		Yes ☐	No ☒
Distance to nearest off-site drinking water well:		Private ☐	Municipal ☐ None identified within 1 mile.
Surface Water Bodies on or Adjacent to Facility (Check all that apply):			
Wetlands ☐	Ditch ☐	Stream/River ☐	Lake/Pond ☐
Local Surface Water Bodies:			
Distance to nearest wetland:	Ditch:	Stream/River:	Lake/Pond: 1 mile

Section H - Environmental Professional Signature:

With my signature below, I certify that the documentation of the completed response activity and all related materials are true, accurate, and complete to the best of my knowledge and belief.

Signature:

Date: 09/15/2014

Printed Name: Susan J. Hoertt

Company of Environmental Professional: Haley & Aldrich, Inc.

Address: 8899 Gander Creek Drive

City: Miamisburg

State: OH

Zip: 45342

Telephone: 937.530.1408

E-mail address: shoertt@haleyaldrich.com

Section I - Submitter Signature:

With my signature below, I certify that the documentation of the completed response activity and all related materials are true, accurate, and complete to the best of my knowledge and belief.

Signature:

Date: 9/16/2014

Printed name: David Favero

Title/Relationship of signatory to submitter: Deputy Cleanup Manager - Michigan

Address: 500 Woodward Avenue, Suite 1510

City: Detroit

State: MI

Zip: 48226

Telephone: 734.879.9525

E-Mail address: dfavero@racetrust.org

This form and the documentation for the completed response activity should be submitted to the MDEQ Remediation & Redevelopment Division District Office for the county in which the property is located, unless the response activity was related to a facility that is regulated by another MDEQ Division. A district map is located at www.michigan.gov/deqrrd. If regulated by another division, contact should be made with that division for information on where to submit the form and documentation.

ATTACHMENT 2

Implementation of Response Activity Plan for RACER Site #12940
6241 Cass Avenue, Detroit, MI, Site Id No.: 82002795
Haley & Aldrich, July 21, 2014

MEMORANDUM

21 July 2014

File No. 37517

TO: Karen Williams, MDEQ
Dave Favero, RACER

FROM: Haley & Aldrich, Inc.
Susan J. Hoertt

SUBJECT: Implementation of Response Activity Plan for
RACER Site #12940
6421 Cass Avenue, Detroit, MI
Site ID No.: 82002795

On 28-30 May 2014, Young's Environmental Cleanup, Inc. (Young's) performed the excavation activities described in the MDEQ-approved Response Activity Plan (Plan) (*August 2013 Soil Investigation at 6241 Cass Avenue Detroit, MI, Site #1294 and Follow-up Work Plan*, Haley & Aldrich, Inc., November 2013) for the RACER Site #12940 located at 6412 Cass Avenue, Detroit, MI (Site). MDEQ approved the Plan in correspondence with RACER Trust dated 7 March 2104. The excavation activities performed by Young's were overseen by Haley & Aldrich, Inc. (Haley & Aldrich).

The excavation activities were performed to address conditions of soil contamination exceeding the Part 201 nonresidential direct contact criteria for lead and/or certain polycyclic aromatic hydrocarbons (PAHs) as identified in the Plan. The excavation included removal of the existing asphalt cover and subsurface soil to a depth of 2 feet below ground surface (bgs) in two discrete areas described in the Plan. The smaller of the two areas of excavation is located in the vicinity of soil boring DB-3 and collectively delineated by soil borings DB-2, DB-4, GP-3, SB2012-1, SB2012-2, and SB2012-3. The larger area of excavation is located in the north-central portion of the Site near soil boring 2013-106 and is delineated by a retaining wall on the north portion of the site and soil borings DB-5, 2013-107, 2013-108, and 2013-106E. These areas are illustrated in Figure 2 of the MDEQ-approved Plan.

It should be noted that upon beginning the onsite excavation activities, Haley & Aldrich identified that the illustration of the smaller area to be excavated near soil boring DB-3 was not represented accurately in Figure 2 of the Plan. This discovery was made as features, including the locations of delineation soil borings SB2012-1, SB2012-2 and SB2012-3 and an area of a previous test pit, were visually identified in the field and were reconciled with a survey base map prepared by Mannik & Smith Group (MSG) in August 2013. The larger area of excavation near soil boring 2013-106 was determined to be as represented in Figure 2 of the Plan. The areas excavated are represented in the attached Figure 1.

All asphalt and soil excavated was loaded directly into transport trucks for off-site disposal at Arbor Hills Landfill located in Northville, MI. A total of 537.97 tons of material was excavated from the two areas and disposed at Arbor Hills Landfill. Shipping papers for the disposed material are attached.

The areas of excavation were backfilled with MDOT 21AA aggregate and were compacted and finished to the existing grade to mitigate the future potential direct contact pathway. Photos of the excavation work and backfilling are attached to this memorandum.

Pursuant to the MEDQ-approved Plan, RACER will file with the Wayne County, Michigan Registry of Deeds a restrictive covenant (RC) that covers the Site. Generally the RC will address the following:

- Prohibit all future use of the Site except nonresidential;
- Prohibit installation of wells or extraction of groundwater except for short term dewatering or as a part of an MDEQ response activity;
- Prohibit soil relocation/management of contaminated soils except in compliance with Part 201, Section 20120c, MCL 324.20120c, Part 111, and Subtitle C of RCRA;
- Maintenance of a barrier over the excavation areas and prohibit excavation or other intrusive activity of the barrier and soil at depths greater than 2 feet bgs (beneath the 2 ft. layer of MDOT 21AA backfill aggregate), unless such subsurface soil is properly managed and all potential exposures resulting from the activities are mitigated; and
- Prohibit building on the area that conservatively could exceed MDEQ vapor intrusion pathway guidance screening criteria for trichloroethylene (TCE), naphthalene, and phenanthrene (represented in Figure 3 of the Plan), unless the potential soil vapor intrusion pathway concerns are further evaluated and/or steps are taken to address such potential conditions.

RENEWAL PROCESS RECERTIFICATION

Generator hereby certifies that the generating waste process previously identified by Waste Code (WC) and as described in the Waste Characterization Data Form (WCD) remains the same at the time the waste was originally characterized.

If the Generator's process changes, the Generator must notify ADS prior to shipping any waste. A new Waste Profile and analytical must be submitted for approval prior to dumping.

Old Waste Code (WC):

ATTACHMENT 3

Declaration of Restrictive Covenant
for 6241 Cass Avenue (Recorded September 8, 2014)

Bernard J. Youngblood
Wayne County Register of Deeds
2014360908 L: 51722 P: 661
09/08/2014 02:42 PM RST Total Pages: 19

2014 SEP -8 PM 2:42

DECLARATION OF RESTRICTIVE COVENANT

DEQ Reference No: RC-RRD-201-14-053

This Declaration of Restrictive Covenant ("Restrictive Covenant") has been recorded with the Wayne County Register of Deeds to protect public health, safety, welfare and the environment pursuant to the applicable Sections of Part 201, Environmental Remediation, Michigan Compiled Laws ("MCL") 324.20101, *et seq.* ("Part 201") of the Natural Resources and Environmental Protection Act ("NREPA"), 1994 PA 451, as amended, MCL 324.101, *et seq.*

This Restrictive Covenant has been made to prohibit or restrict activities that could result in unacceptable exposure to environmental contamination present at the property commonly known as 6241 Cass Avenue, in Detroit, Wayne County, Michigan, Site ID #82002795, Tax Identification Number 002155-7 and legally described and illustrated in Exhibit 1 ("Property"), and to assure that the use of the Property is consistent with the exposure assumptions used to develop the Non-residential clean-up criteria under Section 20120a(1)(b) of the NREPA and the exposure control measures relied upon at the Property.

Recording of this Restrictive Covenant with the Wayne County Register of Deeds is designed to: (1) restrict land uses at the Property; (2) restrict exposures to groundwater on the Property; (3) require any future work or other activities on the Property by or for the Owner to be conducted in conformance with; i) applicable Michigan Department of Environmental Quality ("MDEQ") soil relocation requirements including but not limited to MCL 324.20120c and any related administrative rules and MDEQ guidance, and ii) applicable due care obligations under MCL 324.20107a and associated administrative rules and guidance, and the Hazardous Waste Operations and Emergency Response Standard (HAZWOPER), 29 Code of Federal Regulations Part 1910; (4) require that a cover consistent with the existing cover of the Property or better be maintained in areas of the Property described and illustrated in Exhibit 2, until the Owner has further and appropriately addressed the associated exposure potential such that a cover is no longer needed, as determined by MDEQ; and (5) prohibit structures from being constructed on the Property in areas of the Property described and illustrated in Exhibit 3, unless the Owner has considered the potential for vapor intrusion, if any, and has taken steps to address such potential, if necessary, as may be required by MDEQ.

The land or resource use restrictions contained in this Restrictive Covenant are based upon information available at the time this document was recorded. Future changes in the environmental condition of the Property or changes in the cleanup criteria developed under Part 201; the discovery of environmental conditions at the Property that were not known at the time this document was recorded; or use of the Property in a manner inconsistent with the restrictions described herein, may result in this Restrictive Covenant not being protective of public health, safety, and welfare, and the environment. Additional restrictions may become necessary.

Definitions

"MDEQ" means the Michigan Department of Environmental Quality, its successor entities, and those persons or entities acting on its behalf.

"Owner" means at any given time the then current fee title holder(s) of the Property or any portion thereof, including the fee title holder's lessees and those persons or entities authorized to act on its behalf. The title to the Property is currently held by RACER Properties LLC, an entity wholly owned by the Trust (RACER Properties and the Trust are collectively referred to herein as "RACER").

"RACER" means the Revitalizing Auto Communities Environmental Response Trust ("Trust"), which on March 31, 2011 was established and assumed the rights, title, and interest of Motors Liquidation Company in and to the Property pursuant to an Environmental Response Trust Consent Decree and Settlement Agreement ("Settlement Agreement") entered by the U.S. Bankruptcy Court for the Southern District of New York on March 29, 2011, in the case of *In re Motors Liquidation Company*, et al., Debtors, Case No. 09-50026 (REG), among the Debtors, the United States of America, certain states including the State of Michigan, the Saint Regis Mohawk Tribe, and EPLET, LLC, (not individually but solely in its representative capacity as Administrative Trustee of the Trust).

All other terms used in this document which are defined in Part 3 Definitions, Part 201 of NREPA, or Part 201 of Michigan Administrative Rules, shall have the same meaning in this document as in those statutes and rules as on the date this Restrictive Covenant is made.

Summary of Response Activities

Several environmental assessments of the Property have been conducted between 1996 and 2014 to identify and document associated environmental conditions, and the presence at the Property of substances posing an adverse environmental impact as a result of past operations. Specifically, a geophysical survey was conducted in 2004 to determine the presence or absence of former underground storage tanks ("USTs"), and as follow-up in 2007, several test pits were excavated and various subsurface soil samples were collected and subject to laboratory analyses. Additional subsurface soil sampling and analysis activities were subsequently conducted in 2012 and 2013.

Based on these assessments, soil was collectively found to contain lead and select polynuclear aromatic hydrocarbons ("PAHs") in two discrete areas of the Property at concentrations exceeding the corresponding NREPA nonresidential direct contact criteria. The horizontal and vertical extent of these conditions were delineated in 2012 and 2013 (refer to Exhibit 2), and was determined to collectively encompass a total area of approximately 5,450 square feet, to a depth of 4 feet below the ground surface. In 2014, the 0- to 2-foot depth interval of affected soil in these two areas was excavated and the resulting excavation backfilled with aggregate material imported from a local aggregate supplier. As noted above and further addressed below, a cover consistent with this aggregate cover, or better, over these affected areas must be maintained until the Owner has further and appropriately addressed the associated exposure potential such that a cover is no longer needed, as determined by MDEQ.

Additionally, the results of the assessments described above indicate the collective presence of trichloroethylene and select PAHs in soil at select locations of the Property (refer to Exhibit 3) at concentrations that exceed the corresponding soil vapor screening criteria presented in MDEQ's May 2013, *Guidance Document For The Vapor Intrusion Pathway, DEQ Policy and Procedure Number: 09-017*. As also noted above and further addressed below, buildings or structures shall be prohibited from being constructed on the Property in these affected areas, unless the Owner has considered the potential for vapor intrusion, if any, and has taken steps to address such potential, if necessary, as may be required by MDEQ.

NOW THEREFORE,

Declaration of Land Use or Resource Use Restrictions

RACER hereby declares and covenants that the Property shall be subject to the following restrictions and conditions and intends that said restrictions and covenants shall run with the land, and may be enforced in perpetuity against the Owner by the following entities: (1) RACER or its successor; and (2) MDEQ.

1. Land Use Prohibitions. The Owner shall prohibit all uses of the Property that are not compatible with nonresidential land use category under MCL 324.20120a(1)(b) and generally described in the Description of Allowable Uses, attached hereto as Exhibit 4.

Part 201 cleanup criteria for land use-based response activities are located in the Government Documents Section of the State of Michigan Library, MCL 324.201201, *et seq.*, effective December 31, 2013, and MAC R 299.5701 – R 299.5727, also effective December 31, 2013.

2. Activities Prohibited. The Owner shall prohibit activities on the Property that may result in exposures above the nonresidential land use category. These prohibited activities include:
 - a. No drinking water or irrigation wells may be installed or used on the Property.

- b. No groundwater extraction wells may be installed or used on the Property except for wells and devices that are part of an MDEQ-approved response activity and for short-term dewatering for construction purposes, provided the dewatering, including management and disposal of the groundwater, is conducted in accordance with all applicable environmental laws and does not cause or result in a new release, exacerbation of any pre-existing environmental condition, or any other violation of environmental laws.
 - c. No contaminated soils, if any, may be relocated on the Property except as provided for under Part 201, Section 20120c, MCL 324.20120c.
 - d. The Owner shall not "treat", "store", "dispose", or "release" any Hazardous Substances, on, at, or below the Property, in a manner that would require a permit under the Resource Conservation and Recovery Act, 42 U.S.C. §§ 6901 *et seq.* ("RCRA"), or equivalent State law, except pursuant to a plan or permit approved in writing by MDEQ.
 - e. If Owner elects to remove any slabs, pavement or other impervious surface on the Property, Owner shall be responsible for any and all obligations under environmental laws arising from any such removal, alteration or disturbance, whether or not caused by, arising from or related to, an environmental condition.
3. Contaminated Soil Management. The Owner shall manage contaminated soils, media and/or debris (if any) and all other soils located on the Property in accordance with any applicable requirements of Part 111, Subtitle C of RCRA, the administrative rules promulgated pursuant to Part 111 and RCRA, and all other relevant State and Federal laws, including but not limited to MCL 324.20120c.
4. Direct Contact Exposure Barrier. The Owner shall maintain a barrier (cover) consistent with the existing cover of the Property or better in areas of the Property described and illustrated in Exhibit 2.

The approximately two (2) feet thick barrier of aggregate material at the locations shown in Exhibit 2 serves to prevent exposures to contaminated soils at the Property. Any excavation or other intrusive activity that could affect the integrity of the aggregate material is prohibited, except during short-term construction or repair projects or for purposes of further treating or remediating the subject contamination. Any excavation or other intrusive activity, including removing, altering, or disturbing the aggregate material, that could affect the integrity of the barrier, must be replaced with a cover that provides at least an equivalent degree of protection as the original barrier within fourteen (14) days of completion of the work. Repair and/or replacement of the barrier must be completed unless additional sampling is conducted that demonstrates that a barrier in the specified

area is no longer necessary in accordance with the applicable provisions and requirements of Part 201 of NREPA.

5. Soil Vapor Management. The Owner shall not build or occupy any structure on the Soil Vapor Management Area, which is described and illustrated in Exhibit 3, without first completing one of the following: Option 1) Evaluate and determine, in accordance with applicable environmental laws rules or regulations that no unacceptable vapor intrusion risks to human health exist in any existing or newly constructed site buildings; or Option 2) Install, operate, and maintain a vapor barrier and/or mitigation system designed to eliminate the potential for subsurface vapor phase hazardous substances to migrate into any building at concentrations greater than applicable criteria. This prohibition does not apply to short-term occupancy of a building for purposes of construction, renovation, repair, or other short-term activities as long as adequate health and safety precautions are employed during these activities, and they are performed in compliance with Section 20107a of NREPA.

If Option 2 above is selected, the Owner shall install and thereafter maintain a vapor barrier and/or install and thereafter operate and maintain a vapor intrusion mitigation system in accordance with applicable standards and criteria at the time, for the purpose of mitigating the potential intrusion of soil vapor below any human-occupied building constructed on the property after the date of this Restrictive Covenant, until it is determined that a vapor barrier or mitigation system is no longer necessary in accordance with Option 1, above.

6. Access. The Owner shall grant MDEQ and RACER the right to enter the Property at reasonable times (1) to conduct and complete any and all response activities, together with any reasonably needed ingress and egress to the Property, and (2) for the purpose of determining and monitoring compliance with this Restrictive Covenant, including the right to take samples and, inspect any records relating thereto, and to perform any actions necessary to maintain compliance with Part 111 and Part 201.
7. Conveyance of Property Interest. The Owner shall provide notice to the MDEQ and RACER of the Owner's intent to transfer any interest in the Property at least fourteen (14) days prior to consummating the conveyance. A conveyance of title, easement, or other interest in the Property shall not be consummated by the Owner without adequate and complete provision for compliance with the terms and conditions of this Restrictive Covenant and the applicable provisions of MCL 324.20116. The notice required to be made to the MDEQ under this Paragraph shall be made to: Chief, Office of Waste Management and Radiological Protection, P.O. Box 30241, Lansing, Michigan 48909-7741 and Chief, Remediation and Redevelopment Division, P.O. Box 30241, Lansing, Michigan 48909-7741 (or to the similar position should the MDEQ change organizational names from time-to-time); and shall include a statement that the notice is being made pursuant to the requirements of this Restrictive Covenant. The notice required to be made to RACER under this Paragraph shall be made to: General Counsel, RACER, 500 Woodward Avenue, Suite 1510, Detroit, Michigan, 48226. A copy of this Restrictive

Covenant shall be provided to all future owners, heirs, successors, lessees, easement holders, assigns, and transferees by the person transferring the interest.

8. Term. This Restrictive Covenant shall run with the Property and shall be binding on the Owner, and all current and future successors, lessees, easement holders, their assigns, and their authorized agents, employees, or persons acting under their direction and control. This Restrictive Covenant may only be modified or rescinded with the written approval of MDEQ and RACER.
9. Enforcement. RACER is entitled to enforce the restrictions and covenants in this Restrictive Covenant by specific performance or other legal action in a court of competent jurisdiction against the current and subsequent Owners of all or part of the Property. MDEQ is entitled to enforce the restrictions and covenants in this Restrictive Covenant by specific performance or other legal action in a court of competent jurisdiction. All remedies available hereunder shall be in addition to any and all other remedies at law or equity.
10. Severability. If any provision of this Restrictive Covenant is held to be invalid by a court of competent jurisdiction, the invalidity of such provision shall not affect the validity of any other provisions of this Restrictive Covenant and all other provisions shall continue to remain in full force and effect.
11. Limitation on RACER's Liability. RACER's and the Administrative Trustee's liability is limited by the terms and conditions of the Settlement Agreement, which are incorporated herein by reference.
12. Authority to Execute Restrictive Covenant. The undersigned person executing this Restrictive Covenant is a legal representative of the Owner and represents and certifies that he is duly authorized and has been empowered to execute and deliver this Restrictive Covenant.

[signature page follows]

IN WITNESS WHEREOF, RACER has caused this Restrictive Covenant, to be executed on this 4 day of September, 2014.

DEED RESTRICTION '2A'

Land situated in the City of Detroit, in the County of Wayne, State of Michigan is described as follows:

Part of Out Lot 116 of the Subdivision of part of the Cass Farm, City of Detroit, Wayne County, Michigan, as recorded in Liber 1 of Plats on Pages 175, 176, and 177, Wayne County Records, more particularly described as follows: Commencing at the Northwest corner of Cass Avenue (80 feet Wide) and Amsterdam Avenue (50 feet Wide): Running thence South 67 degrees 01 minutes 35 seconds West along the North line of said Amsterdam Avenue, a distance of 165.00 feet to a point; thence North 22 degrees 43 minutes 25 seconds West along a line which is parallel to the West line of Cass Avenue, a distance of 217.94 feet to a point; thence North 67 degrees 01 minutes 35 seconds East along a line which is parallel to the North line of Amsterdam Avenue, a distance of 21.97 feet to the Point of Beginning; thence North 18 degrees 34 minutes 26 seconds West a distance of 25.68 feet; thence North 68 degrees 44 minutes 55 seconds East a distance of 18.53 feet; thence South 22 degrees 48 minutes 37 seconds East a distance of 22.58 feet; thence South 34 degrees 04 minutes 24 seconds West a distance of 6.05 feet; thence South 70 degrees 06 minutes 31 seconds West a distance of 15.38 feet to the Point of Beginning. Containing 0.011 Acres. Subject to easements and restrictions of record.

DEED RESTRICTION '2B'

Land situated in the City of Detroit, in the County of Wayne, State of Michigan is described as follows:

Part of Out Lot 116 of the Subdivision of part of the Cass Farm, City of Detroit, Wayne County, Michigan, as recorded in Liber 1 of Plats on Pages 175, 176, and 177, Wayne County Records, more particularly described as follows: Commencing at the Northwest corner of Cass Avenue (80 feet Wide) and Amsterdam Avenue (50 feet Wide): Running thence North 22 degrees 43 minutes 25 seconds West along the West line of said Cass Avenue, a distance of 358.22 feet to an angle in said Cass Avenue; thence North 31 degrees 09 minutes 47 seconds West along the West side of Cass Avenue a distance of 27.18 feet to a point in the South line of the right of way of the Michigan Central Railroad (the total right of way width is 118.70 feet); thence South 63 degrees 29 minutes 26 seconds West along said right of way a distance of 44.98 feet to the Point of Beginning; thence South 28 degrees 02 minutes 06 seconds a distance of 83.23 feet; thence South 76 degrees 26 minutes 43 seconds a distance of 61.09 feet; thence North 33 degrees 32 minutes 04 seconds West a distance of 48.16 feet; thence North 60 degrees 45 minutes 53 seconds East a distance of 5.44 feet; thence North 26 degrees 29 minutes 38 seconds West to a point in the South right of way line of Michigan Central Railroad a distance of 21.45 feet; thence North 63 degrees 29 minutes 26 seconds East along said right of way line a distance of 57.77 feet to the point of beginning. Containing 0.105 Acres more or less. Subject to easements and restrictions of record.

EXHIBIT 4

DESCRIPTION OF ALLOWABLE USES

Nonresidential Land Use: This land use is characterized by any use which is not residential in nature and is primarily characterized by industrial and commercial uses. Industrial uses typically involve manufacturing operations engaged in processing and manufacturing of materials or products. Other examples of industrial uses are utility companies, industrial research and development, and petroleum bulk storage. Commercial uses include any business or income-producing use such as commercial warehouses, lumber yards, retail gas stations, auto dealerships and service stations, as well as office buildings, banks, and medical/dental offices (not including hospitals). Commercial uses also include retail businesses whose principal activity is the sale of food or merchandise within an enclosed building and personal service establishments which perform services indoors such as health clubs, barber/beauty salons, photographic studios, etc.

Any residential use is specifically prohibited from the non-residential land use category. This would include the primary use of the property for human habitation and includes structures such as single family dwellings, multiple family structures, mobile homes, condominiums, and apartment buildings. Residential use is also characterized by any use which is intended to house, educate, or provide care for children, the elderly, the infirm, or other sensitive populations, and therefore could include day care centers, educational facilities, hospitals, elder care facilities, and nursing homes. The use of any accessory building or portion of an existing building as a dwelling unit permitted for a proprietor or storekeeper and their families, located in the same building as their place of occupation, or for a watchman or caretaker is also prohibited. Any authority that allows for residential use of the Property as a legal non-conforming use is also restricted per the prohibitions contained in this restrictive covenant.
